PT Pertamina (Persero) — Annual Report 2025 (Laporan Tahunan 2025) – “Steadfast in Stewardship, Sincere in Service” · Condensed training edition

This file contains **selected sections** of the original PT Pertamina (Persero) report, prepared for a Microsoft 365 Copilot hands-on exercise (strategic peer study of upstream oil & gas, downstream & refining, LNG / gas, and renewables / new energy). It is **not** the complete report: 67 of the original 940 pages are reproduced unchanged, in original order; all other sections (e.g. governance, remuneration, risk factors, sustainability data, full notes to the financial statements, legal information) have been omitted, and embedded images above ~150 dpi have been downsampled.

Citing pages: the original page number is shown at the bottom of every reproduced page (“Pertamina AR 2025 · original page N”). Please cite those original page numbers, not the page position in this condensed file. Original page numbers are the **printed page numbers** of the original report (verified: printed page = original PDF page – 2). The unnumbered front cover is labelled “front cover”. The original report is bilingual (Bahasa Indonesia / English); English text runs alongside the Indonesian on most pages.

Section included	Original pages	Pages in this file
Original front cover	front cover (unnumbered)	2
Operational and Business Achievements in 2025	18–19	3–4
Performance Highlights: financial overview (P&L, financial position, cash flow, ratios) and operational/segment overview (Upstream, Refinery & Petrochemical, Commercial & Trading, Gas, Power & NRE)	22–27	5–10
Board of Directors' Report (President Director's message, strategy, 2025 performance, target achievement, future prospects)	60–69	11–20
MD&A - Operational Review by Business Segment: segment results & assets, Upstream, Refinery & Petrochemical, Commercial & Trading, Gas, Power & New Renewable Energy	160–183	21–44
MD&A - Full Cycle Gas & LNG Business (Holding)	190–193	45–48
MD&A - Consolidated Profit or Loss analysis (revenue, costs, net profit, EBITDA)	219–225	49–55
MD&A - Capital Goods Investment (capex)	232	56
MD&A - 2025 Target Achievement (operational, marketing, investment, financial)	235–239	57–61
MD&A - Business Prospects 2026, Performance Projection 2026 and Business Roadmap	245–249	62–66
Consolidated Financial Statements - Consolidated Statement of Profit or Loss and OCI (primary statement)	552–553	67–68

CAPAIAN OPERASI DAN BISNIS 2025
Operational and Business Achievements in 2025

Di tengah dinamika dan tekanan di sektor migas, PERTAMINA tetap mampu menciptakan nilai tambah dari operasi dan bisnis yang dilakukan, baik pada aspek operasi maupun keuangan.

Amidst the dynamics and pressures in the oil and gas sector, PERTAMINA remains capable of creating added value from its operations and business, both in terms of operations and finance.

LAPORAN DIREKSI
Board of Directors' Report

SIMON ALOYSIUS MANTIRI

Direktur Utama
President Director & CEO

PERTAMINA berkomitmen untuk dapat menjadi pilar dalam mewujudkan ketahanan energi sebagai bagian dari visi Pemerintah Indonesia, sekaligus terus tulus melayani pelanggan dan masyarakat dalam mendistribusikan pasokan energi yang dibutuhkan.

PERTAMINA is committed to serving as a key pillar in advancing energy resilience as part of the Government of Indonesia's vision, while continuously and sincerely serving customers and communities through the distribution of the energy supplies they require.

Pemegang Saham dan Pemangku Kepentingan yang Terhormat,

Tahun 2025 merupakan tahun yang menuntut ketegasan arah dan kecepatan respons. Di tengah pelemahan harga minyak mentah, tekanan pada margin kilang, dan dinamika regulasi yang terus bergerak, PERTAMINA memilih untuk bergerak maju, bukan sekadar bertahan. Atas nama Direksi dan seluruh Perwira PERTAMINA, kami menyampaikan laporan pertanggungjawaban pengelolaan Perusahaan untuk tahun buku 2025.

Sektor Migas yang Dinamis dan Strategi Adaptif PERTAMINA

Sepanjang 2025, industri migas global bergerak dalam tekanan berlapis: perlambatan ekonomi dunia yang menekan permintaan, eskalasi geopolitik yang meningkatkan volatilitas pasokan, serta transisi energi yang mempersempit ruang investasi berbasis fosil. *Indonesia Crude Price* (ICP) rata-rata berada di level USD61,1 per barel, di bawah asumsi RKAP 2025 sebesar USD70 per barel, seiring pelemahan permintaan global. Pada sisi kilang, tekanan *crackspread* produk sempat membaik pada November seiring pemeliharaan kilang regional, namun kembali tertekan di Desember mengikuti normalisasi *supply demand* global. Tekanan struktural pada bisnis kilang yang telah berlangsung beberapa tahun menuntut langkah transformasi yang lebih fundamental, bukan sekadar optimasi operasional.

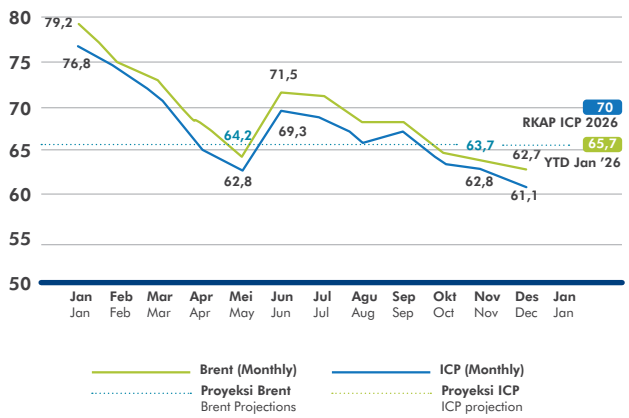

Dear Shareholders and Stakeholders,

The year 2025 was a year that demanded decisive direction and swift response. Amidst weakening crude oil prices, pressure on refinery margins, and constantly evolving regulatory dynamics, PERTAMINA has chosen to move forward, not merely survive. On behalf of the Board of Directors and all PERTAMINA officers, we present the Company's management accountability report for financial year 2025.

Dynamic Oil and Gas Sector and PERTAMINA's Adaptive Strategy

Throughout 2025, the global oil and gas industry was under multiple pressures: a global economic slowdown that suppresses demand, geopolitical escalation that increases supply volatility, and an energy transition that narrows the scope for fossil-based investments. The Indonesian Crude Price (ICP) averaged USD61.1 per barrel, below the 2025 Work Plan and Budget (RKAP) assumption of USD 70 per barrel, in line with weakening global demand. On the refinery side, product crack spread pressure improved in November due to regional refinery maintenance, but returned to pressure in December following the normalization of global supply and demand. The structural pressures on the refinery business, which have persisted for several years, demand a more fundamental transformation, beyond simply optimizing operations.

Harga Minyak Mentah (USD/bbl)
Crude Oil Price (USD/bbl)

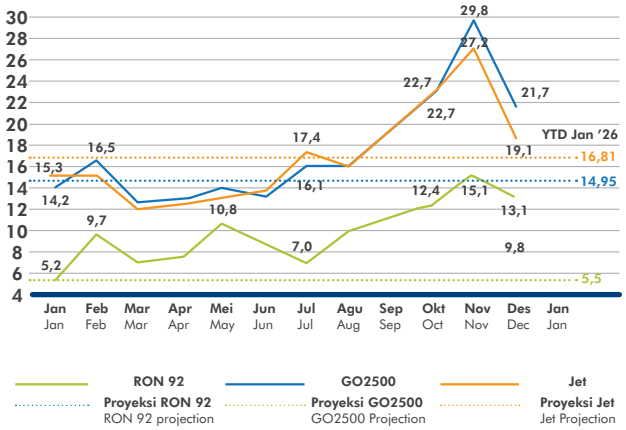

Realisasi Jan - Des 2025
Realization in Jan - Dec 2025

Oversupply dan permintaan yang melemah, meskipun stok minyak mentah AS turun.
Oversupply and weakening demand, despite falling US crude oil stocks.

Turun dari $80,7 /bbl (2024) menjadi $69/bbl (2025).
Decreased from $80.7/bbl (2024) to $69/bbl (2025).

Sanksi dan blokade minyak AS terhadap Venezuela (17 Desember) menambah ketidakpastian dan mendorong volatilitas harga jangka pendek.
US sanctions and oil blockade against Venezuela (December 17) added uncertainty and drove short-term price volatility.

Crackspread Produk Utama (USD/bbl)
Key Product Crack Spread (USD/bbl)

Realisasi Jan - Des 2025
Realization in Jan - Dec 2025

Penurunan Crackspread Gasoline, Gasoil dan jet seiring meredanya ketidakpastian pasokan tercermin dari stabilnya stok di AS dan ARA.
The decline in Crackspread Gasoline, Gasoil and jet as supply uncertainty eased was reflected in stable stocks in the US and ARA.

Kembalinya beroperasinya kilang Al-zour telah menambah kapasitas produksi dan menigkatkan pasokan di pasar.
The return to operation of the Al-zour refinery has increased production capacity and increased supply in the market.

Crackspread Gasoline turun sebesar $1,95/bbl pada Desember 2025.
Gasoline crackspread dropped to $1.95/bbl by December 2025.

Crackspread Gasoline turun sebesar $8,10/bbl pada Desember 2025.
Gasoline crackspread dropped to $8.10/bbl by December 2025.

Crackspread Gasoline turun sebesar $8,11/bbl pada Desember 2025.
Gasoline crackspread dropped to $8.11/bbl by December 2025.

Visi Asta Cita Pemerintah Indonesia yang menjadikan ketahanan energi sebagai prioritas nasional memperkuat mandat PERTAMINA untuk menghadirkan bisnis migas yang tangguh, adaptif, dan berorientasi nilai. Dalam kerangka itulah, Direksi merumuskan dan mengeksekusi serangkaian inisiatif strategis, mulai dari restrukturisasi portofolio, optimasi rantai nilai hulu-hilir, hingga penguatan landasan tata kelola, yang bertujuan mempertahankan dan meningkatkan penciptaan nilai jangka panjang bagi pemegang saham dan seluruh pemangku kepentingan.

Di sisi hulu, PT Pertamina Hulu Energi berhasil mendorong persetujuan insentif fiskal untuk Wilayah Kerja OSES dari Kementerian ESDM, sekaligus mengamankan proses perpanjangan PSC Nunukan, Pertamina EP, dan Pertamina EP Cepu. Di sisi hilir, PT Pertamina Patra Niaga dan PT Kilang Pertamina Internasional mengakselerasi peningkatan serapan *crude* domestik, penurunan *alpha* impor dan sumber *crude* yang lebih baik, pengurangan biaya impor, percepatan penyelesaian subsidi dan kompensasi, serta perluasan pangsa pasar JBU Retail.

The Indonesian Government's Asta Cita vision, which prioritizes energy security as a national priority, reinforces PERTAMINA's mandate to deliver a resilient, adaptive, and value-oriented oil and gas business. Within this framework, the Board of Directors has formulated and executed a series of strategic initiatives, ranging from portfolio restructuring and optimizing the upstream-downstream value chain to strengthening the governance foundation, aimed at maintaining and enhancing long-term value creation for the shareholders and all stakeholders.

On the upstream side, PT Pertamina Hulu Energi successfully pushed for fiscal incentive approval for the OSES Working Area from the Ministry of Energy and Mineral Resources, while securing the extension process for PSC Nunukan, Pertamina EP, and Pertamina EP Cepu. On the downstream side, PT Pertamina Patra Niaga and PT Kilang Pertamina Internasional accelerated the increase in domestic crude absorption, reduced alpha imports and better crude sources, reduced import costs, accelerated subsidy and compensation settlement, and expanded the JBU Retail market share.

Pada Subholding Gas, PERTAMINA melalui PT Perusahaan Gas Negara Tbk mengupayakan perpanjangan Perjanjian Jual Beli Gas (PJBG) dan penambahan sumber gas, serta langkah mitigatif terkait risiko aset dengan melakukan *impairment* pada anak usaha, PT Saka Energi Indonesia. Pada Subholding Integrated Marine Logistics, PT Pertamina International Shipping terus berupaya menciptakan bisnis yang berkelanjutan melalui peningkatan market *non-captive*. Untuk Energi Baru Terbarukan (EBT), PT Pertamina Power Indonesia selaku Subholding Power New & Renewable Energy terus mengembangkan sumber EBT seperti investasi anorganik proyek Palawan, dan rencana beberapa pengembangan seperti lapangan panas bumi bekerja sama dengan PT Perusahaan Listrik Negara (Persero), proyek bioethanol, *Waste to Energy*, dan manufaktur solar panel.

In the Gas Subholding, PERTAMINA through PT Perusahaan Gas Negara Tbk is seeking an extension of the Gas Sales and Purchase Agreement (PJBG) and additional gas sources, as well as mitigating steps related to asset risks by performing impairment on its subsidiary, PT Saka Energi Indonesia. In the Integrated Marine Logistics Subholding, PT Pertamina International Shipping continues to strive to create a sustainable business through increasing the non-captive market. For New and Renewable Energy (NRE), PT Pertamina Power Indonesia as the Power New & Renewable Energy Subholding continues to develop NRE sources such as inorganic investment in the Palawan project, and plans for several developments such as geothermal fields in collaboration with PT Perusahaan Listrik Negara (Persero), bioethanol projects, Waste to Energy, and solar panel manufacturing.

Atas persetujuan Pemerintah Indonesia selaku Pemegang Saham, PERTAMINA mengakselerasi penguatan struktur Holding melalui pendekatan *streamlining* bisnis yang adaptif. Tantangan struktural pada bisnis kilang membutuhkan arsitektur organisasi yang lebih responsif dan efisien. Oleh karena itu, PERTAMINA mengintegrasikan bisnis hilir dengan menyatukan Subholding Refining & Petrochemical, Subholding Commercial & Trading, dan Subholding Integrated Marine Logistics ke dalam satu entitas Downstream. Langkah ini berdampak positif, khususnya pada pemulihan provisi *impairment* pada bisnis kilang yang dimiliki Perusahaan.

With the approval of the Indonesian Government as a Shareholder, PERTAMINA accelerated the strengthening of its Holding structure through an adaptive business streamlining approach. Structural challenges in the refinery business require a more responsive and efficient organizational architecture. Therefore, PERTAMINA integrated its downstream business by uniting the Refining & Petrochemical Subholding, the Commercial & Trading Subholding, and the Integrated Marine Logistics Subholding into a single Downstream entity. This step has had a positive impact, particularly on the recovery of impairment provisions in the Company's refinery business.

Di luar pengelolaan investasi dan proyek, PERTAMINA terus memperkuat komitmennya sebagai perusahaan energi nasional yang menjalankan tata kelola migas dengan standar tertinggi. Reputasi Perusahaan adalah aset strategis yang memengaruhi kepercayaan investor, mitra, dan masyarakat, dan itu menjadi agenda prioritas Direksi. Komitmen ini tercermin nyata dalam ketahanan energi: program BBM 1 Harga yang menjangkau wilayah terpencil, serta respons cepat terhadap bencana alam di lapangan seperti "BBM 1 Harga" maupun ketersediaan layanan saat bencana alam Aceh dan Sumatra Barat yang mengharuskan PERTAMINA bergerak cepat menyediakan BBM, LPG, air bersih, logistik, dan dukungan relawan untuk fasilitas kesehatan, dapur umum, serta posko pengungsian. Kami sangat menyadari, energi menjadi kebutuhan dasar saat pemulihan berlangsung dan PERTAMINA hadir sebagai bagian dari solusi.

Beyond investment and project management, PERTAMINA continues to strengthen its commitment as a national energy company that implements oil and gas governance to the highest standards. The Company's reputation is a strategic asset that influences the trust of investors, partners, and the community, and it is a priority agenda of the Board of Directors. This commitment is clearly reflected in energy security: the One-Price Fuel program that reaches remote areas, as well as rapid responses to natural disasters in the field such as "One-Price Fuel" and the availability of services during the natural disasters in Aceh and West Sumatra that required PERTAMINA to act quickly to provide fuel, LPG, clean water, logistics, and volunteer support for health facilities, public kitchens, and evacuation posts. We are very aware that energy is a basic need during the recovery process and PERTAMINA is present as a part of the solution.

Mengelola Kendala dan Tantangan serta Peran Direksi

Tahun 2025 menghadirkan sejumlah tantangan operasional yang menuntut keputusan taktis dan respons terukur. Potensi *impairment* pada beberapa Wilayah Kerja Subholding Upstream, serta munculnya kendala kelistrikan di Wilayah Kerja Rokan sebagai Wilayah Kerja dengan kontribusi produksi terbesar di lingkup PERTAMINA, mengharuskan kami untuk mengambil langkah solutif seperti peremajaan aset serta revitalisasi aset pembangkit *critical*.

Managing Constraints and Challenges and Role of Board of Directors

The year 2025 presented a number of operational challenges that require tactical decisions and measured responses. The potential for impairment in several Working Areas of the Upstream Subholding, as well as the emergence of electricity constraints in the Rokan Working Area, the Working Area with the largest production contribution within PERTAMINA, requires us to take solution-oriented steps such as asset rejuvenation and revitalization of critical generating assets.

Dalam mengelola kompleksitas bisnis PERTAMINA yang bersinggungan dengan berbagai kepentingan, baik dari sisi regulator maupun pemangku kepentingan lokal, advokasi menjadi instrumen strategis yang tidak dapat diabaikan. Selain program *cross ring fencing* dan tentunya *operational excellence* sebagai sesuatu yang mendasar, potensi *impairment* pada beberapa Wilayah Kerja Subholding Upstream juga membutuhkan advokasi insentif fiskal dari Pemerintah Indonesia. Demikian pula solusi peremajaan aset serta revitalisasi aset pembangkit *critical* pada Wilayah Kerja Rokan membutuhkan kajian dengan dukungan penuh dari pemangku kepentingan terkait.

In managing the complexity of PERTAMINA's business, which intersects with various interests, both from the regulator and local stakeholders, advocacy is a strategic instrument that cannot be ignored. In addition to the cross-ring fencing program and of course operational excellence as something fundamental, the potential for impairment in several Working Areas of the Upstream Subholding also requires advocacy for fiscal incentives from the Indonesian Government. Likewise, solutions for asset rejuvenation and revitalization of critical generating assets in the Rokan Working Area require a study with the full support of relevant stakeholders.

Pada agenda investasi anorganik di sektor hulu, PERTAMINA dan Pemegang Saham bersama-sama membangun keselarasan arah kebijakan sehingga diperoleh kepastian bahwa investasi ini akan terus dilanjutkan sesuai rencana. Koordinasi serupa juga dijalankan bersama Pemegang Saham dan pemangku kepentingan terkait dalam proses *streamlining* bisnis pada Subholding Downstream yang telah berhasil diinisiasi pada awal 2026 dan akan terus berlanjut hingga triwulan IV 2026.

Regarding the inorganic investment agenda in the upstream sector, PERTAMINA and its shareholders are working together to establish alignment on policy direction to ensure that these investments will continue as planned. Similar coordination is also being conducted with the shareholders and relevant stakeholders in the business streamlining process at the Downstream Subholding, which was successfully initiated in early 2026 and will continue through the fourth quarter of 2026.

Dalam pengelolaan kendala dan tantangan yang ada, kami selaku Manajemen Puncak PERTAMINA berperan penting untuk mengambil keputusan strategis khususnya pengambilan keputusan yang membutuhkan aksi cepat tanggap. Kami telah membentuk organisasi yang selaras dengan kebutuhan pengambilan keputusan yang efektif. Pelibatan aspirasi dari para Perwira PERTAMINA, khususnya dari Perwira yang terlibat di lapangan, menjadi masukan penting yang tertuang dalam berbagai penyelenggaraan Rapat Direksi. Dari masukan itu, kami selaku Manajemen Puncak dapat mempertimbangkan permasalahan dan mengambil keputusan yang mampu memberikan solusi.

In managing existing obstacles and challenges, we, as PERTAMINA's Top Management, play a crucial role in making strategic decisions, particularly those requiring rapid response. We have established an organization aligned with the needs of effective decision-making. Involving the aspirations of PERTAMINA's officers, particularly those involved in the field, provides crucial input, incorporated into various Board of Directors' meetings. Based on this input, we, as the Top Management, can consider issues and make decisions that can provide solutions.

Tak hanya itu, advokasi juga menjadi jalan krusial yang harus ditempuh PERTAMINA dalam menyukseskan operasi dan bisnisnya. Kami selaku Direksi telah mengupayakan advokasi kepada Pemegang Saham dan berbagai pemangku kepentingan terkait dalam rangka penyelesaian berbagai kendala dan tantangan yang ada. Proses ini dilalui, yang tentunya dilandasi pada semangat tumbuh bersama seluruh pemangku kepentingan, sebagai bagian dari strategi PERTAMINA dengan bisnis yang memang berdampingan dengan berbagai kebutuhan baik tentang regulasi, perizinan, kepentingan pihak lain, maupun inovasi bisnis baru yang membutuhkan kerangka regulasi.

Furthermore, advocacy is a crucial path PERTAMINA must take to ensure the success of its operations and business. As the Board of Directors, we have advocated for the shareholders and various relevant stakeholders to address various obstacles and challenges. This process, grounded in a spirit of growing together with all stakeholders, is a part of PERTAMINA's strategy, with businesses facing various needs, including regulations, permits, the interests of other parties, and new business innovations that require a regulatory framework.

Pencapaian Target dan Kinerja 2025

Sebagaimana telah dijelaskan di atas, kondisi tahun 2025 memberikan tantangan yang luar biasa bagi PERTAMINA yang terutama terlihat RKAP PERTAMINA tahun 2025 terkait ICP yang berada di atas realisasi per Desember 2025. Secara keseluruhan, produksi migas pada Subholding Upstream mencatat realisasi di kisaran angka 97% terhadap target RKAP Perusahaan. Adanya beberapa kendala, termasuk kondisi *force majeur* berupa banjir berdampak pada pencapaian target di sektor hulu. Pada sektor kilang dan pemrosesan, realisasi di akhir tahun 2025 mampu menunjukkan hasil yang cukup baik. Subholding Refining & Petrochemical (R&P) membukukan tingginya volume *intake* dengan capaian hingga 105,80% dengan realisasi *crude intake* mencapai 105,11% terhadap target RKAP 2025. Tingginya *intake* ini sejalan dengan *output* kilang serta kinerja bisnis kilang yang membukukan realisasi di atas target.

Sektor hilir yang dikelola Subholding Commercial & Trading menunjukkan pencapaian yang bervariasi, dengan realisasi BBM *Public Service Obligation* (PSO) terdiri dari Jenis BBM Tertentu (JBT) yang disubsidi mencakup solar/minyak tanah dan Pertalite sebagai Jenis BBM Khusus Penugasan (JBKP) yang dikompensasi seluruhnya mencatat realisasi sedikit di bawah target yang disusun di awal. Di sisi lain, realisasi penjualan LPG PSO membukukan pencapaian 104,53%. Sedangkan pengelolaan bisnis gas di bawah Subholding Gas menemui tantangan yang cukup besar terkait kemampuan daya beli pelanggan, yang tercermin dari rendahnya serapan volume Non-Harga Gas Bumi Tertentu (HGBT) dari LNG. Pada Transmisi Gas, PGN mampu mencatat pencapaian target yang cukup baik hingga 111,22% sebagai dampak positif dari pengoperasian penuh PLN Belawan di Sumatra Utara, tambahan pasokan, dan kenaikan serapan pembangkit listrik, yang kemudian memberikan hasil positif bagi produksi LPG yang mampu membukukan kinerja di atas target yang telah ditetapkan.

Pengelolaan bisnis logistik PERTAMINA yang dikelola Subholding Integrated Marine & Logistics juga mencatat kinerja yang cukup baik, dengan catatan realisasi kargo domestik berhasil membukukan kinerja 123,2% terhadap target. Demikian pula bisnis EBT di bawah Subholding Power & New Renewable Energy mencatat realisasi kinerja produksi listrik PT Pertamina Power Indonesia hingga 141,39% dari target yang utamanya dipengaruhi tingginya serapan PLTGU Jawa-1 oleh PLN dan kontribusi operasional Gas Engine Dumai; sedangkan produksi listrik dari PT Pertamina Geothermal Energy Tbk berhasil membukukan kinerja hingga 103,81% dari target RKAP sebagai dampak positif dari optimalisasi kinerja di area panas bumi Kamojang, Lahendong, dan Lumut Balai.

2025 Target Achievement and Performance

As explained above, the conditions in 2025 presented extraordinary challenges for PERTAMINA, which was especially evident in PERTAMINA's 2025 RKAP regarding ICP which was above the realization as of December 2025. Overall, oil and gas production in the Upstream Subholding recorded a realization of around 97% of the Company's RKAP target. The existence of several obstacles, including force majeure conditions in the form of floods, impacted the achievement of targets in the upstream sector. In the refinery and processing sector, realization at the end of 2025 was able to show quite good results. The Refining & Petrochemical (R&P) Subholding recorded a high intake volume with an achievement of up to 105.80% with crude intake realization reaching 105.11% of the 2025 RKAP target. This high intake is in line with refinery output and refinery business performance which recorded realization above the target.

The downstream sector managed by the Commercial & Trading Subholding showed varied achievements, with the realization of Public Service Obligation (PSO) fuel consisting of Certain Types of Fuel (JBT) which are subsidized including diesel/kerosene and Pertalite as a Special Assignment Fuel Type (JBKP) which was compensated all recorded realization slightly below the target set at the beginning. On the other hand, the realization of LPG PSO sales recorded an achievement of 104.53%. Meanwhile, the management of the gas business under the Gas Subholding encountered significant challenges related to customer purchasing power, which was reflected in the low absorption of Certain Non-Price Natural Gas (HGBT) volumes from LNG. In Gas Transmission, PGN was able to record a fairly good target achievement of up to 111.22% as a positive impact of the full operation of PLN Belawan in North Sumatra, additional supply, and increased absorption of power plants, which then provided positive results for LPG production which was able to record performance above the set target.

PERTAMINA's logistics business management managed by the Integrated Marine & Logistics Subholding also recorded quite good performance, with domestic cargo realization successfully posting a performance of 123.2%% of the target. Likewise, the EBT business under the Power & New Renewable Energy Subholding recorded the realization of PT Pertamina Power Indonesia's electricity production performance of up to 141,39% of the target, which was mainly influenced by the high absorption of PLTGU Jawa-1 by PLN and the operational contribution of Gas Engine Dumai; while electricity production from PT Pertamina Geothermal Energy Tbk managed to record performance of up to 103.81% of the RKAP target as a positive impact of performance optimization in the geothermal areas of Kamojang, Lahendong, and Lumut Balai.

Pengembangan Tata Kelola dan Penguatan Reputasi

PERTAMINA memandang penerapan Tata Kelola Perusahaan yang Baik, atau *Good Corporate Governance* (GCG) bukan sekadar pemenuhan kewajiban regulasi, melainkan sebagai fondasi kompetitif yang menentukan kualitas keputusan, integritas proses, dan kepercayaan pemangku kepentingan. GCG merupakan bagian integral dari strategi keberlanjutan PERTAMINA dan mencerminkan komitmen Perusahaan terhadap praktik bisnis yang etis dan bertanggung jawab.

Dalam aspek kepatuhan, PERTAMINA telah membangun struktur organ tata kelola yang memadai sebagai landasan pengambilan keputusan yang independen dan akuntabel. Khususnya pada keputusan investasi yang melibatkan nilai pendanaan berskala besar, PERTAMINA telah membentuk mekanisme pengambilan dan pemantauan keputusan investasi yang sistematis, di samping pengawasan Dewan Komisaris. Peran Akuntan Publik independen juga diperkuat untuk memastikan opini yang objektif atas laporan keuangan Perusahaan.

Melampaui kepatuhan formal, PERTAMINA secara aktif melibatkan pakar eksternal dan pemangku kepentingan dalam membangun budaya GCG yang mengakar dalam setiap lapisan organisasi. Pelibatan eksternal ini sekaligus memperkuat fungsi pengawasan independen dan meningkatkan akuntabilitas Perusahaan kepada publik yang lebih luas.

Reputasi PERTAMINA adalah kepercayaan yang dibangun dari tindakan nyata, bukan dari pernyataan. PERTAMINA mengemban tanggung jawab sebagai perusahaan energi nasional bertaraf internasional dan lokomotif ekonomi Indonesia, dan itulah standar yang harus dipenuhi setiap hari. Direksi berkomitmen untuk terus melakukan perbaikan menyeluruh, dari efisiensi dan keandalan operasi hulu, hingga inovasi layanan dan pengalaman pelanggan di hilir, demi mengembalikan dan memperkuat posisi PERTAMINA sebagai perusahaan energi kelas dunia.

Susunan Direksi

Di sepanjang 2025, Pemegang Saham memutuskan untuk melakukan perubahan susunan Direksi, sebagai berikut:

- Pada tanggal 12 Juni 2025, melalui Keputusan Menteri BUMN RI dan Direktur Utama PT Danantara Asset Management selaku Para Pemegang Saham No. SK-149/MBU/06/2025 dan No. SK.011/DI-DAM/DO/2025, Para Pemegang Saham memutuskan untuk memberhentikan dengan hormat Wiko Migantoro, Alfian Nasution, dan Erry Widiastono dari posisinya masing-masing sebagai Wakil Direktur Utama, Direktur Logistik & Infrastruktur, dan Direktur Penunjang Bisnis. Melalui keputusan yang sama, Para Pemegang Saham memutuskan untuk mengalihkan penugasan kepada M. Erry

Governance Development and Strengthening of Reputation

PERTAMINA views the implementation of Good Corporate Governance (GCG) not merely as fulfilling regulatory obligations, but as a competitive foundation that determines the quality of decisions, the integrity of processes, and stakeholder trust. GCG is an integral part of PERTAMINA's sustainability strategy and reflects the Company's commitment to ethical and responsible business practices.

In terms of compliance, PERTAMINA has established an adequate governance structure as a foundation for independent and accountable decision-making. Particularly for investment decisions involving large-scale funding, PERTAMINA has established a systematic investment decision-making and monitoring mechanism, in addition to oversight by the Board of Commissioners. The role of independent Public Accountants has also been strengthened to ensure an objective opinion on the Company's financial statements.

Beyond formal compliance, PERTAMINA actively engages external experts and stakeholders to build a culture of GCG that is deeply rooted in every layer of the organization. This external engagement simultaneously strengthens the company's independent oversight function and enhances its accountability to the wider public.

PERTAMINA's reputation is trust built on concrete actions, not on mere statements. PERTAMINA carries the responsibility of being a national energy company with international standards and the driving force of the Indonesian economy, and that is the standard it must meet every day. The Board of Directors is committed to continuous comprehensive improvements, from the efficiency and reliability of upstream operations to service innovation and customer experience downstream, to restore and strengthen PERTAMINA's position as a world-class energy company.

Composition of Board of Directors

Throughout 2025, the Shareholders decided to make changes to the composition of the Board of Directors, as follows:

- On June 12, 2025, through Decision of Minister of State-Owned Enterprises of the Republic of Indonesia and President Director of PT Danantara Asset Management as Shareholders No. SK-149/MBU/06/2025 and No. SK.011/DI-DAM/DO/2025, the Shareholders decided to honorably dismiss Wiko Migantoro, Alfian Nasution, and Erry Widiastono from their respective positions as the Vice President Director, the Director of Logistics & Infrastructure, and the Director of Corporate Services. Through the same decision, the Shareholders decided to transfer the assignment to M. Erry Sugiharto, from previously the Director of

Sugiharto, dari sebelumnya Direktur Sumber Daya Manusia menjadi Direktur Penunjang Bisnis. Selain itu, Para Pemegang Saham juga memutuskan untuk mengangkat Oki Muraza untuk menjabat sebagai Wakil Direktur Utama, Jaffee Arizon Suardin sebagai Direktur Logistik & Infrastruktur, Agung Wicaksono sebagai Direktur Transformasi dan Keberlanjutan Bisnis, serta Andy Arvianto sebagai Direktur Sumber Daya Manusia

- Pada tanggal 10 November 2025, A. Salyadi Dariah Saputra mengundurkan diri dari jabatannya sebagai Direktur Strategi, Portofolio, dan Pengembangan Usaha, yang ditetapkan berdasarkan Keputusan Menteri BUMN RI dan Direktur PT Danantara Asset Management selaku Para Pemegang Saham No. 113 Tahun 2026 dan No. SK.047/DI-DAM/DO/2026 tanggal 30 Januari 2026.

Dengan demikian, susunan Direksi per 31 Desember 2025 adalah sebagai berikut:

- Direktur Utama: Simon Aloysius Mantiri
- Wakil Direktur Utama: Oki Muraza
- Direktur Keuangan: Emma Sri Martini
- Direktur Penunjang Bisnis: M. Erry Sugiharto
- Direktur Manajemen Risiko: Ahmad Siddik Badruddin
- Direktur Logistik & Infrastruktur: Jaffee Arizon Suardin
- Direktur Transformasi dan Keberlanjutan Bisnis: Agung Wicaksono
- Direktur Sumber Daya Manusia: Andy Arvianto

Pada 30 Januari 2026, melalui Keputusan Menteri BUMN RI dan Direktur PT Danantara Asset Management selaku Para Pemegang Saham No. 113 Tahun 2026 dan No. SK.047/DI-DAM/DO/2026, Para Pemegang Saham memutuskan untuk mengalihkan tugas Emma Sri Martini dari sebelumnya Direktur Keuangan menjadi Direktur Strategi Portofolio dan Pengembangan Usaha. Di samping itu, Para Pemegang Saham juga memutuskan untuk mengangkat Mega Satria untuk menjabat posisi Direktur Keuangan.

Dengan demikian, susunan Direksi pada saat laporan ini disahkan adalah sebagai berikut:

- Direktur Utama: Simon Aloysius Mantiri
- Wakil Direktur Utama: Oki Muraza
- Direktur Strategi Portofolio dan Pengembangan Usaha: Emma Sri Martini
- Direktur Penunjang Bisnis: M. Erry Sugiharto
- Direktur Manajemen Risiko: Ahmad Siddik Badruddin
- Direktur Logistik & Infrastruktur: Jaffee Arizon Suardin
- Direktur Transformasi dan Keberlanjutan Bisnis: Agung Wicaksono
- Direktur Sumber Daya Manusia: Andy Arvianto
- Direktur Keuangan: Mega Satria

Human Capital to the Director of Corporate Services. In addition, the Shareholders also decided to appoint Oki Muraza to serve as the Vice President Director, Jaffee Arizon Suardin as the Director of Logistics & Infrastructure, Agung Wicaksono as the Director of Transformation & Business Sustainability, and Andy Arvianto as the Director of Human Capital

- On November 10, 2025, A. Salyadi Dariah Saputra resigned from his position as Director of Strategy, Portfolio & Business Development, as stipulated under the Resolution of the Minister of State-Owned Enterprises of the Republic of Indonesia and the Director of PT Danantara Asset Management acting as the Shareholders pursuant to Resolution No. 113 of 2026 and No. SK.047/DI-DAM/DO/2026 dated January 30, 2026.

Accordingly, the composition of the Board of Directors as of December 31, 2025 was as follows:

- President Director & CEO: Simon Aloysius Mantiri
- Deputy President Director & Deputy CEO: Oki Muraza
- Director of Finance: Emma Sri Martini
- Director of Corporate Services: M. Erry Sugiharto
- Director of Risk Management: Ahmad Siddik Badruddin
- Director of Integrated Logistics & Infrastructure: Jaffee Arizon Suardin
- Director of Transformation & Business Sustainability: Agung Wicaksono
- Director of Human Capital: Andy Arvianto

On January 30, 2026, pursuant to the Resolution of the Minister of State-Owned Enterprises of the Republic of Indonesia and the Director of PT Danantara Asset Management acting as the Shareholders under Resolution No. 113 of 2026 and No. SK.047/DI-DAM/DO/2026, the Shareholders resolved to reassign Emma Sri Martini from her previous position as Director of Finance to Director of Portfolio Strategy and Business Development. In addition, the Shareholders also resolved to appoint Mega Satria as Director of Finance.

Accordingly, the composition of the Board of Directors as of the date of this Report is as follows:

- President Director & CEO: Simon Aloysius Mantiri
- Deputy President Director & Deputy CEO: Oki Muraza
- Director of Strategy, Portfolio & New Ventures: Emma Sri Martini
- Director of Corporate Services: M. Erry Sugiharto
- Director of Risk Management: Ahmad Siddik Badruddin
- Director of Integrated Logistics & Infrastructure: Jaffee Arizon Suardin
- Director of Transformation & Business Sustainability: Agung Wicaksono
- Director of Human Capital: Andy Arvianto
- Director of Finance: Mega Satria

Prospek ke Depan

Memasuki 2026, volatilitas geopolitik di Timur Tengah dan ketidakpastian pertumbuhan ekonomi global tetap mewarnai lanskap industri migas. Di tengah konteks tersebut, PERTAMINA memasuki tahun 2026 dengan landasan yang lebih kokoh dan strategi yang lebih terasah. Dengan tema bisnis strategis "*Accelerating the Pathway Towards Future Opportunities*", PERTAMINA telah menyiapkan skenario risiko melalui *stress testing* yang dapat mengonfigurasikan dampaknya bagi kinerja keuangan Perusahaan.

Dengan mengusung pendekatan *dual-growth strategy* yang berfokus pada penguatan bisnis eksisting yang sudah ada dan juga pengembangan bisnis rendah karbon, PERTAMINA akan terus berfokus pada pemenuhan Asta Cita dari Pemerintah Indonesia, khususnya melalui program ketahanan energi. Integrasi bisnis hilir melalui pembentukan Subholding Downstream pada 1 Februari 2026 akan menjadi jejak langkah penting bagi Perusahaan untuk menciptakan *streamlining* bisnis yang adaptif, baik terhadap amanat yang diberikan Pemegang Saham, maupun atas dinamika industri migas yang membutuhkan respon dan keputusan cepat. Kami juga akan terus melakukan advokasi atas beberapa agenda yang membutuhkan koordinasi dari berbagai pihak, baik itu program Subsidi Tepat untuk produk PSO maupun pengembangan berbagai proyek. Kami juga akan menekankan pada efisiensi biaya operasi dengan berfokus pada penguatan orientasi laba bersih setelah pajak.

Perusahaan juga akan berfokus pada upaya berkelanjutan atas perbaikan tata kelola melalui penerapan *Four Eyes Policy* khususnya dengan penguatan komite dan penyempurnaan batas kewenangan. Penguatan budaya keselamatan kerja juga terus menjadi perhatian kami, khususnya dengan melibatkan kontraktor dan mitra kerja. Inovasi juga akan menjadi kunci penting bagi upaya mewujudkan *operational excellence*, khususnya melalui infrastruktur digital seperti digitalisasi SPBU. Di samping itu, kami juga akan terus memperkuat reputasi khususnya pada sektor hilir yang bersinggungan langsung dengan pelanggan, di mana kami akan terus melakukan transformasi SPBU dan berkolaborasi dengan akademisi dan LSM sebagai mitra kami dalam menggelar program Tanggung Jawab Sosial Perusahaan.

Dengan berbagai upaya positif tersebut, di tahun 2026 PERTAMINA memroyeksikan mampu menciptakan efektivitas melalui penurunan BOPO dan membukukan peningkatan laba operasi dan nilai integritas aset yang cukup solid.

Future Prospects

As we enter 2026, geopolitical volatility in the Middle East and uncertainty over global economic growth continue to shape the oil and gas industry landscape. Amidst this context, PERTAMINA entered 2026 with a stronger foundation and a more refined strategy. With the strategic business theme "Accelerating the Pathway Towards Future Opportunities," PERTAMINA has prepared risk scenarios through stress testing that can configure their impact on the Company's financial performance.

By adopting a dual-growth strategy approach that focuses on strengthening existing businesses and developing low-carbon businesses, PERTAMINA will continue to focus on fulfilling the Asta Cita of the Indonesian Government, particularly through the energy security program. The integration of downstream businesses through the establishment of the Downstream Subholding on February 1, 2026, will be an important milestone for the Company to create adaptive business streamlining, both to the mandate given by Shareholders, as well as to the dynamics of the oil and gas industry that require quick responses and decisions. We will also continue to advocate for several agendas that require coordination from various parties, both the Appropriate Subsidy program for PSO products and the development of various projects. We will also emphasize operational cost efficiency by focusing on strengthening the orientation of net profit after tax.

The company will also focus on ongoing efforts to improve governance through the implementation of the Four Eyes Policy, particularly by strengthening committees and refining authority boundaries. Strengthening the work safety culture also continues to be our focus, particularly by involving contractors and partners. Innovation will also be a key factor in achieving operational excellence, particularly through digital infrastructure such as the digitization of gas stations. Furthermore, we will continue to strengthen our reputation, particularly in the downstream sector that directly interacts with customers. We will continue to transform gas stations and collaborate with academicians and NGOs as our partners in implementing Corporate Social Responsibility programs.

With these various positive efforts, PERTAMINA projects that in 2026 we will be able to create effectiveness by reducing BOPO and posting a fairly solid increase in operating profit and asset integrity value.

Akhir Kata

Kami menyampaikan penghargaan kepada Para Pemegang Saham, Pemerintah Indonesia melalui BP BUMN dan PT Danantara Asset Management, atas arahan strategis dan kepercayaan yang diberikan. Kepada Dewan Komisaris, kami mengapresiasi pengawasan yang konstruktif dan masukan yang memperkuat pengelolaan Perusahaan. Kepada seluruh Perwira PERTAMINA, dedikasi dan integritas yang Anda tunjukkan adalah kekuatan sesungguhnya perusahaan ini. Tidak lupa, kami berterima kasih kepada seluruh investor, mitra strategis, dan pemangku kepentingan yang telah menjadi bagian dari perjalanan PERTAMINA di tahun 2025.

Kebersamaan yang terbangun di atas kepercayaan dan kolaborasi adalah modal utama PERTAMINA dalam mewujudkan visi Pemerintah Indonesia: perusahaan energi nasional yang mampu memberikan nilai tambah nyata bagi Indonesia, hari ini dan generasi mendatang.

Closing

We express our appreciation to our Shareholders, the Government of Indonesia through BP BUMN and PT Danantara Asset Management, for their strategic direction and trust. To the Board of Commissioners, we appreciate their constructive oversight and input that strengthen the Company's management. To all PERTAMINA officers, your demonstrated dedication and integrity are the true strength of this company. We also extend our gratitude to all investors, strategic partners, and stakeholders who have been a part of PERTAMINA's journey in 2025.

Togetherness built on trust and collaboration is PERTAMINA's main capital in realizing the vision of the Indonesian Government: a national energy company capable of providing real added value for Indonesia, today and for future generations.

Jakarta, 29 Mei 2026
Jakarta, May 29, 2026

TINJAUAN OPERASI PER SEGMEN USAHA
Operational Review by Business Segment

Laporan Keuangan teraudit PERTAMINA telah mengadopsi PSAK 108 tentang Segmen Operasi. Berdasarkan informasi yang disajikan dalam Laporan Keuangan teraudit yang berakhir pada 31 Desember 2025, PERTAMINA mengelola 8 (delapan) segmen sebagaimana menjadi bisnis pengelolaan energi terintegrasi dari hulu hingga ke hilir. Di samping itu, PERTAMINA juga menyajikan informasi segmen geografis yang menggambarkan komposisi bisnis PERTAMINA secara wilayah.

PERTAMINA'S audited financial statements have adopted PSAK 108 on Operating Segments. According to the information presented in the audited financial statements for the year ending December 31, 2025, PERTAMINA managed eight segments as a part of its integrated energy management business from upstream to downstream. Furthermore, PERTAMINA also presents geographic segment information that illustrates the composition of PERTAMINA's business by region.

Tabel dan bagan di atas memberikan sekilas gambaran tentang ukuran bisnis pengelolaan energi terintegrasi yang dilakukan kelompok usaha PERTAMINA. Tentang operasi yang dilakukan, serta model bisnis dan profitabilitas setiap segmen operasi dijelaskan secara lengkap di bawah ini.

The table and chart above provide a glimpse into the size of the PERTAMINA group's integrated energy management business. The operations, business models, and profitability of each operating segment are detailed below.

Upstream (Eksplorasi dan Eksploitasi)

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Wilayah Kerja Segmen Upstream

Segmen usaha eksplorasi dan eksploitasi PERTAMINA dijalankan oleh PT Pertamina Hulu Energi ("PHE"). PHE mengelola Subholding Upstream yang dibentuk berdasarkan Surat Persetujuan Kementerian BUMN RI selaku Pemegang Saham No. S-467/MBU/06/2021 tanggal 30 Juni 2021.

Upstream (Exploration and Exploitation)

Business Activities, Business Group Consolidation, and Working Areas of Upstream Segment

PERTAMINA's exploration and exploitation business segment is run by PT Pertamina Hulu Energi ("PHE"). PHE manages the Upstream Subholding, which was established pursuant to Approval Letter from the Ministry of State-Owned Enterprises of the Republic of Indonesia as Shareholder No. S-467/MBU/06/2021 dated June 30, 2021.

Kegiatan usaha sektor hulu ini mencakup eksplorasi, pengeboran, pengembangan dan produksi minyak, gas dan panas bumi, penyediaan jasa teknologi, serta jasa pemboran dan servis. Cakupan operasionalnya adalah seluruh wilayah kerja PERTAMINA, baik di dalam maupun luar negeri.

Hingga akhir tahun buku 2025, Subholding Upstream terdiri dari 5 (lima) regional yaitu Regional 1 mencakup wilayah Sumatra, Regional 2 mencakup wilayah Jawa, Regional 3 mencakup wilayah Kalimantan, Regional 4 mencakup wilayah Indonesia Timur, dan Regional 5 yang mencakup wilayah internasional, yang di bawahnya ada 40 wilayah kerja domestik (terdiri dari 22 WK operator dan 18 WK non operator) dan 3 wilayah kerja internasional yang dikelola oleh 3 anak perusahan PIEP serta kepemilikan saham di Maurel & Prom (M&P). Pembagian regional mempertimbangkan aspek volume produksi, kewilayahan, dan kompleksitas operasional. Selain itu, model pembagian tersebut dapat meningkatkan sinergi, fleksibilitas operasi, pendanaan, serta mendorong efisiensi dan efektivitas proses bisnis. Subholding Upstream juga menaungi 2 (dua) Anak Perusahaan services yaitu PT Elnusa Tbk dan PT Pertamina Drilling Services Indonesia serta 1 (satu) Anak Perusahaan yang bergerak di dalam pemrosesan gas alam yaitu PT Badak NGL. Disamping itu PHE juga menaungi beberapa perusahaan patungan yaitu salah satunya PT Donggi Senoro LNG yang juga bergerak di bidang pemrosesan gas.

Sebelum keberadaan Subholding, entitas anak atau regional memiliki peran sebagai perencana, *validator*, pembuat kebijakan, *optimizer*, dan *integrator*. Namun, saat ini peran regional hanya berfokus pada *optimizer* dan *integrator* untuk meningkatkan keselamatan, produksi, dan cadangan migas dengan mengintegrasikan potensi wilayah kerja masing-masing.

The upstream business sector's activities include exploration, drilling, development, and production of oil, gas, and geothermal energy, the provision of technology services, and drilling and servicing. Its operational scope covers all of PERTAMINA's operating areas, both domestically and internationally.

As of the end of fiscal year 2025, the Upstream Subholding consisted of 5 (five) regions, namely Regional 1 covering the Sumatra area, Regional 2 covering Java, Regional 3 covering Kalimantan, Regional 4 covering Eastern Indonesia, and Regional 5 covering international operations. Under these regions, there are 40 domestic working areas (consisting of 22 operator working areas and 18 non-operator working areas) and 3 international working areas managed by 3 subsidiaries of PIEP, as well as share ownership in Maurel & Prom (M&P). The regional division takes into consideration aspects such as production volume, geographical coverage, and operational complexity. In addition, this regional division model is intended to enhance synergy, operational flexibility, funding capabilities, and to promote greater efficiency and effectiveness in business processes. The Upstream Subholding also oversees 2 (two) service subsidiaries, namely PT Elnusa Tbk and PT Pertamina Drilling Services Indonesia, as well as 1 (one) subsidiary engaged in natural gas processing, namely PT Badak NGL. In addition, PHE also oversees several joint venture companies, one of which is PT Donggi Senoro LNG, which is also engaged in gas processing activities.

Prior to the existence of Subholdings, subsidiaries or regional entities served as planners, validators, policymakers, optimizers, and integrators. However, the regional roles now focus solely on optimizers and integrators, improving oil and gas safety, production, and reserves by integrating the potential of their respective working areas.

Strategi Pengembangan dan Kinerja Operasional Segmen *Upstream*

Pada tahun 2025, kinerja segmen usaha eksplorasi dan eksploitasi PERTAMINA yang dikelola oleh Subholding Upstream berhasil mempertahankan produksi dari laju penurunan alami, walaupun mengalami kenaikan jumlah produksi minyak mencapai 556 MBOPD, meningkat 0,04% dibandingkan dengan tahun sebelumnya sebesar 556 MBOPD, atau mencapai 97% dari Rencana Kerja dan Anggaran Perusahaan (RKAP) Revisi 2025 yang sebesar 572 MBOPD.

Sementara produksi gas tahun 2025 tercatat sebesar 2.757 MMSCFD, turun 2,66% dibandingkan dengan tahun 2024 sebesar 2.833 MMSCFD, atau mencapai 98% dari RKAP Revisi.

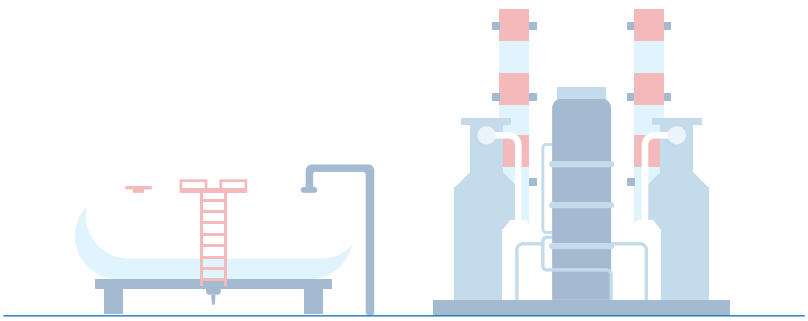

Development Strategy and Operational Performance of Upstream Segment

In 2025, the performance of PERTAMINA's exploration and exploitation business segment managed by the Upstream Subholding succeeded in maintaining production from the natural decline rate, despite experiencing an increase in oil production reaching 556 MBOPD, an increase of 0.04% compared to the previous year of 556 MBOPD, or reaching 97% of the Revised 2025 Corporate Work Plan and Budget (RKAP) of 572 MBOPD.

Meanwhile, gas production in 2025 was recorded at 2,757 MMSCFD, down 2.66% compared to 2024 at 2,833 MMSCFD, or reaching 98% of the Revised 2025 RKAP.

Migas Oil and gas	MMBOE	313,69	358,22	(44,53)	(12,43)

Pada tahun 2025, sebagai upaya mencari cadangan minyak dan gas dalam rangka eksplorasi, Perusahaan melakukan survei seismik 3D seluas 854,88 km^2, di mana capaian realisasi ini sebesar 123,40% dibandingkan dengan RKAP. Untuk pengeboran, Perusahaan melalui Subholding Upstream merealisasikan 20 sumur eksplorasi dan 887 sumur eksploitasi di mana capaian realisasi masing-masing sebesar 153,85% dan 107,79% dibandingkan dengan RKAP Revisi.

Pada umumnya, kinerja eksplorasi pada tahun 2025 menunjukkan kenaikan pada masing-masing pencapaian realisasi, termasuk kegiatan aktivitas survei seismik 2D dan 3D penambahan sumber daya kontingen. Tren ini mencerminkan peningkatan aktifitas dan pencapaian dibandingkan target dalam RKAP Revisi.

In 2025, as an effort to find oil and gas reserves for exploration, the Company conducted a 3D seismic survey covering an area of 854.88 km^2, where the realization achievement was 123.40% compared to the RKAP. For drilling, the Company through the Upstream Subholding realized 20 exploration wells and 887 exploitation wells where the realization achievement was 153.85% and 107.79% respectively compared to the RKAP.

Overall, exploration performance in 2025 shows an increase in each realized achievement, including 2D and 3D seismic survey activities, as well as the addition of contingent resources. This trend reflects increasing activity and achievement compared to the targets in the Revised 2025 Work Plan and Budget (RKAP).

Refinery & Petrochemical (Operasi dan Pengembangan Kilang)

Refinery & Petrochemical (Refinery Operations and Development)

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Wilayah Kerja Segmen *Refinery & Petrochemical*

Kegiatan usaha PERTAMINA di bidang operasi dan pengembangan kilang dijalankan oleh Subholding Refining & Petrochemical. Subholding ini bertanggung jawab dalam proses kegiatan pengolahan minyak menjadi produk minyak dan petrokimia di sejumlah kilang minyak yang beroperasi. PT Kilang Pertamina Internasional ("KPI") ditunjuk sebagai pengelola Subholding berdasarkan Surat Persetujuan Kementerian BUMN RI selaku Pemegang Saham No. S-466/MBU/06/2021 tanggal 30 Juni 2021. Sebagai perusahaan Subholding, KPI bertanggung jawab dalam investasi dan usaha bisnis PERTAMINA di sektor pengolahan, mega proyek kilang pengolahan dan petrokimia.

Hingga tahun buku 2025, sebagai induk Subholding Refining & Petrochemical, KPI membawahi 6 (enam) unit kilang di Dumai, Plaju, Cilacap, Balikpapan, Balongan dan Kasim. Selain itu, KPI juga mengelola proyek strategis pengembangan kilang Balikpapan yang dikelola PT Kilang Pertamina Balikpapan dan pembangunan kilang baru *Grassroot Refinery* GRR Tuban yang dikelola PT Pertamina Rosneft Pengolahan & Petrokimia. Kapasitas pengolahan selama tahun 2025 mencapai 333,56 MMbbl.

Business Activities, Business Group Consolidation, and Working Areas of Refinery & Petrochemical Segment

PERTAMINA's business activities in the field of refinery operations and development are conducted by the Refining & Petrochemical Subholding. This Subholding is responsible for the process of processing oil into oil and petrochemical products at a number of operating oil refineries. PT Kilang Pertamina Internasional ("KPI") was appointed as the Subholding manager pursuant to Approval Letter of Ministry of State-Owned Enterprises of the Republic of Indonesia as Shareholder No. S-466/MBU/06/2021 dated June 30, 2021. As a Subholding company, KPI is responsible for PERTAMINA's investment and business endeavors in the processing sector, mega refinery projects, and petrochemicals.

Until fiscal year 2025, as the parent of the Refining & Petrochemical Subholding, KPI oversaw 6 (six) refinery units in Dumai, Plaju, Cilacap, Balikpapan, Balongan and Kasim. In addition, KPI also manages the strategic project of developing the Balikpapan refinery managed by PT Kilang Pertamina Balikpapan and the construction of the new Grassroot Refinery GRR Tuban refinery managed by PT Pertamina Rosneft Pengolahan & Petrokimia. The processing capacity during 2025 reached 333.56 MMbbl.

Operasi kilang-kilang tersebut adalah sebagai berikut:

1. Operasi Kilang BBM, terdiri dari Kilang RU-II sampai dengan RU-VII yang memproduksi BBM dan non BBM serta produk lainnya.
2. Operasi Kilang Petrokimia, terdiri dari Kilang *Paraxylene* di RU-IV Cilacap yang memproduksi *Paraxylene* dan *Benzene* serta produk lainnya; Kilang *Polypropylene* di RU-III Plaju yang memproduksi *Polytam* (*Polypropylene* PERTAMINA); serta Kilang OCU (*Olefin Convertion Unit*) di RU-VI Balongan yang memproduksi *Propylene*.
3. Operasi Kilang *Lube Base* di RU-IV Cilacap yang memproduksi *Lube Base* HVI-60, HVI-95, HVI-160, HVI-650, *Paraffinic*, *Slack Wax*, *Minarex*, dan *Asphalt*.

The operations of these refineries are as follows:

1. Fuel Oil Refinery Operations, consisting of Refineries RU-II to RU-VII which produce fuel oil and non-fuel oil and other products.
2. Petrochemical Refinery Operations, consisting of the Paraxylene Refinery at RU-IV Cilacap which produces Paraxylene and Benzene and other products; the Polypropylene Refinery at RU-III Plaju which produces Polytam (PERTAMINA Polypropylene); and the OCU (Olefin Conversion Unit) Refinery at RU-VI Balongan which produces Propylene.
3. Lube Base Refinery Operation at RU-IV Cilacap which produces Lube Base HVI-60, HVI-95, HVI-160, HVI-650, Paraffinic, Slack Wax, Minarex, and Asphalt.

	RU-II Dumai	RU-III Plaju	RU-IV Cilacap	RU-V Balikpapan	RU-VI Balongan	RU-VIII Kasim
Kapasitas (BBPOD) Capacity (BBPOD)	170	120	348	260	150	10
NCI	7,6	3	7,4	4,2	11,9	2,4

KPI juga menjalankan langkah-langkah strategis dalam rangka mengamankan pasokan dan memenuhi kebutuhan BBM di dalam negeri, di antaranya optimasi unit Residual *Fluid Catalytic Cracking* (RFCC) di RU-IV Cilacap dan optimasi unit *Residue Catalytic Cracking* (RCC) di RU-VI Balongan, serta mengoperasikan kilang *Trans Pacific Petrochemical Indotama* (TPPI) Tuban. Upaya lain adalah melakukan pembenahan dan perbaikan pada RU yang ada dan mengupayakan pembangunan kilang baru.

KPI also implements strategic measures to secure supplies and meet domestic fuel oil needs, including optimizing the Residual Fluid Catalytic Cracking (RFCC) unit at RU-IV Cilacap and the Residue Catalytic Cracking (RCC) unit at RU-VI Balongan, as well as operating the Trans Pacific Petrochemical Indotama (TPPI) Tuban refinery. Other efforts include improvements and repairs to existing RUs and pursuing the construction of new refineries.

Realisasi *Yield Variable Product* (YVP) tahun 2025 sebesar 83,74%, mengalami peningkatan sebesar 0,64% dibandingkan tahun 2024. Pencapaian ini didorong oleh beberapa inisiatif, antara lain:

1. Program pelaksanaan BBM Mode di RU IV Cilacap
   BBM *Mode* merupakan salah satu program unggulan Direktorat Operasi bahwa dengan adanya program BBM Mode dapat meningkatkan produksi MFO *Low Sulphur* (komoditas ekspor ex PT KPI yang merupakan salah satu *valuable product*).

The realization of Yield Variable Product (YVP) in 2025 was 83.74%, increasing by 0.64% compared to 2024. This achievement was driven by several initiatives, including:

1. BBM Mode implementation program at RU IV Cilacap
   BBM Mode is one of the flagship programs of the Directorate of Operations that the presence of the BBM Mode program can increase the production of MFO Low Sulphur (ex-PT KPI export commodity which is one of the valuable products).

2. Optimasi Pengolahan *Secondary Unit* KPI
   Pada tahun 2025 telah dilakukan optimasi pengolahan pada beberapa *Secondary Unit* di PT KPI, antara lain optimasi kapasitas unit HCU RU II dan RU V, optimasi kapasitas RFCC RU IV, dan optimasi kapasitas RCC dan KLBB RU VI. Dengan adanya optimasi kapasitas di *Secondary Unit* dapat meningkatkan produksi *Gasoil* dan *Gasoline series* untuk mendukung pencapaian produksi *valuable product* di PT KPI.

2. Processing Optimization of Secondary Unit of KPI
   In 2025, processing optimization was conducted at several Secondary Units at PT KPI, including optimizing the capacity of the HCU units of RU II and RU V, optimizing the capacity of the RFCC of RU IV, and optimizing the capacity of the RCC and KLBB of RU VI. With the capacity optimization at the Secondary Unit, it can increase the production of Gasoil and Gasoline series to support the achievement of valuable product production at PT KPI.

Commercial & Trading (Pemasaran dan Niaga)

Commercial & Trading

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Wilayah Operasi Segmen *Commercial & Trading*

Kegiatan usaha PERTAMINA di bidang pemasaran dan niaga atau komersial serta perdagangan merupakan insiatif dalam pengembangan model bisnis yang terintegrasi. Segmen ini bagian dari rantai kegiatan bisnis hilir Perusahaan dalam menyediakan produk berkualitas unggul bagi konsumen serta memberikan kemudahan kerja sama yang saling menguntungkan.

Business Activities, Business Group Consolidation, and Operating Areas of Commercial & Trading Segment

PERTAMINA's business activities in marketing and commerce or trade represent an initiative in developing an integrated business model. This segment is a part of the Company's downstream business chain, providing superior quality products for consumers and facilitating mutually beneficial collaborations.

Kegiatan usaha komersial dan perdagangan Perusahaan dijalankan melalui Subholding Commercial & Trading yang dikelola PT Pertamina Patra Niaga (PPN) berdasarkan pelaksanaannya dengan Surat Persetujuan Kementerian BUMN RI selaku Pemegang Saham No. S-468/MBU/06/2021 tanggal 30 Juni 2021. Dalam menjalankan kegiatan usahanya, PPN didukung oleh entitas anak dan infrastruktur yang memadai untuk mendistribusikan serta memasarkan produk energi yang dihasilkan ke seluruh Indonesia, termasuk ke pasar luar negeri.

Struktur Grup Subholding Commercial & Trading Pertamina Patra Niaga Entitas Anak dan *Joint Venture* Perusahaan, yakni:

Strategi Pengembangan dan Kinerja Operasional Segmen *Commercial & Trading*

Pada tahun 2025, jumlah penjualan bahan bakar minyak (BBM) PERTAMINA yang direalisasikan oleh Subholding Commercial & Trading mencapai 85,67 juta KL, turun 0,42% dibandingkan dengan tahun 2024 sebesar 86,03 juta KL. Penurunan ini disebabkan realisasi penjualan JBKP Pertalite yang lebih rendah 5,5% dibandingkan dengan tahun 2024 sejalan dengan upaya penyaluran JBKP Pertalite agar mencapai kuota yang ditugaskan oleh pemerintah melalui implementasi 100% Full QR Subsidi Tepat JBKP di 513 kota/kabupaten. Selain itu, penyesuaian harga JBU yang cukup bersaing juga mendorong konsumen untuk mulai beralih menggunakan produk JBU. Penurunan volume penjualan juga terjadi pada segmen IMFB sebesar 1,6% dibandingkan dengan tahun 2024 disebabkan adanya penurunan penjualan pada Segmen Instansi Pemerintah, Perkebunan, Energi, Industri Lainnya, Penjualan Konsumen Region dan Agen BBM (Penyalur) khususnya pada penjualan produk Solar.

Sedangkan untuk penjualan Non BBM sebesar 19,41 KL, meningkat 2,05% dibandingkan tahun sebelumnya sebesar 19,02 juta KL. Kenaikan ini terutama disebabkan adanya pertumbuhan penjualan isi ulang (refill) LPG dalam kemasan tabung 3 Kg sebesar 3,4% dibandingkan dengan tahun 2024 karena kenaikan konsumsi produk LPG, disparitas harga dengan LPG NPSO, perubahan kebijakan dari pemerintah terkait pengecer pada bulan Februari 2025, antisipasi ketahanan suplai dalam rangka pelaksanaan Satgas Ramadhan dan Idul Fitri 2025 bulan Maret hingga April 2025, serta pelaksanaan Satgas Natal 2025 dan Tahun Baru 2026. Selain itu, belum adanya pembatasan penggunaan LPG 3 Kg per kriteria pengguna menyebabkan peningkatan konsumsi LPG 3 Kg.

Development Strategy and Operational Performance of Commercial & Trading Segment

In 2025, the total sales of PERTAMINA fuel oil (BBM) realized by the Commercial & Trading Subholding reached 85.67 million KL, decreasing by 0.42% compared to 2024 of 86.03 million KL. This decrease was due to the realization of JBKP Pertalite sales which was 5.5% lower compared to 2024 in line with the efforts to distribute JBKP Pertalite to achieve the quota assigned by the government through the implementation of 100% Full QR JBKP's accurate Subsidy in 513 cities/regencies. In addition, the adjustment of JBU prices which were quite competitive also encouraged consumers to start switching to use JBU products. A decrease of sales volume also occurred in the IMFB segment by 1.6% compared to 2024 due to a decrease of sales in the Government Agencies, Plantations, Energy, Other Industries, Regional Consumer Sales and Fuel Agents (Distributors) Segments, particularly in the sales of diesel fuel products.

Meanwhile, non-fuel sales of 19.41 KL increased by 2.05% compared to the previous year of 19.02 million KL. This increase was mainly due to the growth of 3-Kg cylinder LPG refill sales by 3.4% compared to 2024 due to the increase of LPG product consumption, price disparity with the NPSO LPG, changes in government policy regarding retailers in February 2025, anticipation of supply security in the context of the implementation of the 2025 Ramadhan and Eid al-Fitr Task Force from March to April 2025, and the implementation of the 2025 Christmas and New Year 2026 Task Force. In addition, the absence of restrictions on the use of 3-Kg LPG per user criteria has caused an increase of 3-Kg LPG consumption.

Gas (Bisnis Gas)

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Wilayah Operasi Segmen Gas

Kegiatan usaha PERTAMINA di bidang gas dilaksanakan melalui Subholding Gas yang dikelola oleh PT Perusahaan Gas Negara (Persero) Tbk (PGN). PGN menjalankan kegiatan usaha secara terintegrasi dari hulu ke hilir, mulai dari pengembangan dan eksplorasi sumur gas, transmisi gas bumi, niaga gas bumi, pengadaan dan pemasaran *Liquefied Natural Gas* (LNG), *Compressed Natural Gas* (CNG).

PGN juga membawahi proyek-proyek infrastruktur gas. Di antaranya, pembangunan fasilitas regasifikasi LNG, jalur pipa gas, dan SPBG. Hingga akhir tahun buku 2025, PGN memiliki 7 (tujuh) entitas anak dan 2 (dua) afiliasi atau ventura bersama.

Subholding Gas PERTAMINA PT Perusahaan Gas Negara (Persero) Tbk Entitas Anak atau Ventura Bersama lainnya:
1. PT Saka Energi Indonesia
2. PT PGN LNG Indonesia
3. PT Gagas Energi Indonesia
4. PT PGAS Solution
5. PT PGAS Telekomunikasi Nusantara
6. PT Permata Graha Nusantara
7. PT Pertamina Gas
8. PT Transportasi Gas Indonesia
9. PT Nusantara Regas

Dalam melaksanakan kegiatan usahanya, Subholding Gas terus berupaya memastikan pertumbuhan yang berkelanjutan, mengedepankan sinergi dan kolaborasi untuk mendukung pemerintah dalam menghadirkan energi yang lebih baik dan berkelanjutan. Subholding berfokus pada pengembangan dan pengelolaan gas yang lebih efisien serta responsif terhadap perubahan iklim industri domestik dan pasar global.

Program konversi penggunaan energi, seperti batu bara dan diesel ke gas bumi dalam masa transisi energi menuju *net zero emission*, menjadikan peran gas bumi semakin penting. Karena itu, PGN terus melakukan inisiasi dan penyelesaian program-program investasi untuk mendukung pemanfaatan gas bumi yang semakin luas.

Saat ini, PGN telah beroperasi di 78 kabupaten atau kota yang terletak di 18 Provinsi di Indonesia. Ke depan, PGN akan terus membuka wilayah baru sehingga memudahkan akses energi bersih untuk masyarakat. Segmen pengguna akhir gas bumi PGN mulai rumah tangga, transportasi (SPBG), pelanggan kecil, komersial, industri, dan pembangkit listrik.

Gas (Gas Business)

Business Activities, Business Group Consolidation, and Operating Areas of Gas Segment

PERTAMINA's gas business activities are conducted through the Gas Subholding, managed by PT Perusahaan Gas Negara (Persero) Tbk (PGN). PGN operates an integrated business from upstream to downstream, including gas well development and exploration, natural gas transmission, natural gas trading, and the procurement and marketing of Liquefied Natural Gas (LNG) and Compressed Natural Gas (CNG).

PGN also oversees gas infrastructure projects, including the construction of LNG regasification facilities, gas pipelines, and gas stations (SPBGs). By the end of fiscal year 2025, PGN had 7 (seven) subsidiaries and 2 (two) affiliates or joint ventures.

Other Subsidiaries or Joint Ventures of PERTAMINA Gas Subholding PT Perusahaan Gas Negara (Persero) Tbk:
1. PT Saka Energy Indonesia
2. PT PGN LNG Indonesia
3. PT Gagas Energy Indonesia
4. PT PGAS Solution
5. PT PGAS Telekomunikasi Nusantara
6. PT Permata Graha Nusantara
7. PT Pertamina Gas
8. PT Transportasi Gas Indonesia
9. PT Nusantara Regas

In conducting its business activities, the Gas Subholding continues to strive to ensure sustainable growth, prioritizing synergy and collaboration to support the government in providing better and more sustainable energy. The Subholding focuses on developing and managing gas more efficiently and responsively to climate change in the domestic industry and global markets.

The program of converting energy sources, such as coal and diesel, to natural gas during the energy transition towards net-zero emissions, has made natural gas increasingly important. Therefore, PGN continues to initiate and complete investment programs to support the wider use of natural gas.

Currently, PGN operates in 78 regencies or cities across 18 provinces in Indonesia. Going forward, PGN will continue to open new areas to facilitate public access to clean energy. PGN's natural gas end-user segments include households, transportation (gas stations), small customers, commercial, industrial, and power plants.

Volume Transportasi Gas Gas Transport Volume	MMSCF	587.390	564.605	22.788	4,04
Jumlah Pelanggan Gas Number of Gas Customers	Pelanggan Customer	830.391	816.645	13.746	1,68
Panjang Pipa Pipe Length	Km	33.494	33.254	240	0,72

*) terdapat penyesuaian kinerja operasional di tahun 2024
there were operational performance adjustments in 2024

Sepanjang tahun 2025, PERTAMINA melalui Subholding Gas berhasil menjual gas sebanyak 305.148 *Billion British Thermal Unit* (BBTU), turun 2,17% dibandingkan dengan tahun 2024 sebesar 311.914 BBTU. Hal ini terutama dipengaruhi keterbatasan pasokan gas pipa yang diprioritaskan untuk pelanggan HGBT dan belum tercapainya volume Non HGBT untuk LNG alokasi PGN terkait kemampuan pelanggan serta adanya beberapa gangguan pasok (*planned* maupun *unplanned maintenance*) dari pasokan Medco Grissik, PEPC JTB dan HCML BD yang menambah terjadinya *imbalance* pasokan dan *demand*. Mengantisipasi hal ini, PGN menjalankan beberapa strategi di antaranya melalui perluasan jangkauan infrastruktur pipa gas serta optimalisasi terminal regasifikasi LNG untuk pengembangan produk (*product development*) melalui diversifikasi sumber pasokan dengan menyediakan gas hasil regasifikasi LNG.

Throughout 2025, PERTAMINA through the Gas Subholding managed to sell 305,148 Billion British Thermal Units (BBTU) of gas, decreasing by 2.17% compared to 2024 of 311,914 BBTU. This was mainly influenced by the limited supply of pipeline gas prioritized for HGBT customers and the failure to achieve the Non-HGBT volume for the LNG allocated for PGN related to customer capacity as well as several supply disruptions (planned and unplanned maintenance) from Medco Grissik, PEPC JTB and HCML BD supplies which added to the imbalance in supply and demand. To anticipate this, PGN implemented several strategies among others through the expansion of reach of gas pipeline infrastructure and optimization of LNG regasification terminals for product development through diversification of supply sources by providing LNG regasification gas.

Sedangkan untuk volume transportasi gas, pada tahun 2025 mencapai 587.390 *Million Standard Cubic Feet* (MMSCF), meningkat 4% dibandingkan dengan tahun sebelumnya sebesar 564.605 MMSCF. Pertumbuhan yang solid ini didorong oleh peningkatan kebutuhan dari pembangkit listrik di Jawa dan Sumatera dan peningkatan kebutuhan kilang di Kalimantan serta kenaikan pengaliran gas dari shipper baru.

Meanwhile, gas transportation volume in 2025 reached 587,390 Million Standard Cubic Feet (MMSCF), representing a 4% increase compared to 564,605 MMSCF in the previous year. This solid growth was driven by rising demand from power plants in Java and Sumatra, increased refinery demand in Kalimantan, as well as higher gas throughput from new shippers.

Pada tahun 2025, jumlah pelanggan perusahaan sebanyak 830.391 pelanggan. Sedangkan pipa yang digunakan untuk menyalurkan gas sepanjang 33.494 km. Pipa yang dikelola tersebut terdiri dari: Pipa Distribusi sepanjang 7.904 km, Pipa Transmisi sepanjang 4.879 km, Pipa Jargas sepanjang 19.706 km, Pipa Anak Perusahaan/Afiliasi PGN 1.005 km. Pipa jaringan gas (jargas) terdiri dari jaringan gas yang dibangun dengan menggunakan Anggaran Pendapatan dan Belanja Negara (APBN) dan jaringan gas yang merupakan Barang Milik Negara (BMN) yang telah diserahkan ke PERTAMINA dengan sistem inbreng sebagai Penambahan Penyertaan Modal Negara melalui Peraturan Pemerintah RI No. 50 Tahun 2020 dan Peraturan Pemerintah RI No. 48 tahun 2023. Sejak tahun 2015, jargas pemerintah tersebut dikelola operasionalnya oleh PGN Group.

In 2025, the Company served a total of 830,391 customers, while the gas transmission and distribution pipeline network extended to 33,494 km. The managed pipeline infrastructure comprised 7,904 km of distribution pipelines, 4,879 km of transmission pipelines, 19,706 km of city gas network (jargas) pipelines, and 1,005 km of pipelines owned by PGN subsidiaries/affiliates. The city gas network (jargas) consists of gas pipeline infrastructure developed using the State Budget (APBN) as well as state-owned assets (BMN) that have been transferred to PERTAMINA through an inbreng mechanism as an Additional State Capital Injection pursuant to Government Regulation No. 50 of 2020 and Government Regulation No. 48 of 2023. Since 2015, the operational management of the government-owned city gas network has been carried out by the PGN Group.

Power & New Renewable Energy (Energi Baru & Terbarukan)

Power & New Renewable Energy

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Portofolio Segmen *Power & New Renewable Energy*

Kegiatan usaha PERTAMINA di sektor kelistrikan dan pengembangan energi baru dan terbarukan (EBT) dikelola oleh PT Pertamina Power Indonesia ("Pertamina NRE") sebagai Subholding Power & NRE Perusahaan. Pelaksanaannya mengacu pada *legal end state* Subholding Power & NRE berdasarkan Surat Persetujuan Kementerian BUMN RI selaku Pemegang Saham No. S-469/MBU/06/2021 tanggal 30 Juni 2021.

Business Activities, Business Group Consolidation, and Portfolio of Power & New Renewable Energy Segment

PERTAMINA's business activities in the electricity sector and the development of new and renewable energy (EBT) are managed by PT Pertamina Power Indonesia ("Pertamina NRE") as the Company's Power & NRE Subholding. Its implementation refers to the legal end state of Power & NRE Subholding pursuant to Approval Letter of Ministry of State-Owned Enterprises of the Republic of Indonesia as a Shareholder No. S-469/MBU/06/2021 dated June 30, 2021.

Pertamina NRE bertugas menjalankan, mengendalikan, dan mengelola kegiatan usaha ketenagalistrikan (*power*) berbasis gas dan EBT yang dapat menghasilkan energi dalam bentuk listrik maupun non-listrik, maupun kegiatan usaha rendah karbon dan bisnis hijau lainnya milik Perusahaan. Pertamina NRE didukung entitas anak dan afiliasi yang memiliki kegiatan usaha panas bumi, yaitu PT Pertamina Geothermal Energy Tbk, kegiatan usaha pembangkitan listrik berbasis gas, yaitu PT Jawa Satu Power, kegiatan usaha penyimpanan dan regasifikasi LNG, yaitu PT Jawa Satu Regas, serta kegiatan usaha ekosistem baterai terintegrasi, yaitu PT Industri Baterai Indonesia.

Pertamina NRE is tasked with running, controlling, and managing gas-based and renewable energy (EBT) electricity (power) business activities that can produce energy in the form of electricity and non-electricity, as well as low-carbon business activities and other green businesses owned by the Company. Pertamina NRE is supported by subsidiaries and affiliates that have geothermal business activities, namely PT Pertamina Geothermal Energy Tbk, gas-based electricity generation business activities, namely PT Jawa Satu Power, LNG storage and regasification business activities, namely PT Jawa Satu Regas, and integrated battery ecosystem business activities, namely PT Industri Baterai Indonesia.

PT Pertamina Geothermal Energy Tbk (PGE) mengelola 15 wilayah kerja panas bumi (WKP), dengan total kapasitas terpasang hingga akhir tahun 2025 mencapai 1.932 MW. Kapasitas tersebut terdiri atas 727 MW yang dioperasikan sendiri dan 1.205 MW dari *joint operation contract* (JOC).

PT Pertamina Geothermal Energy Tbk (PGE) manages 15 geothermal working areas (GWA), with a total installed capacity of 1,932 MW by the end of 2025. This capacity consists of 727 MW operated by the company itself and 1,205 MW under joint operation contracts (JOCs).

PT Jawa Satu Power mengelola Pembangkit Listrik Tenaga Uap dan Gas (PLTG *Combined-Cycle Gas Turbine*/CCGT) dengan kapasitas 1.760 MW (2x880 MW) untuk memasok kebutuhan listrik sistem pembangkitan Jawa-Bali. Pasokan gas untuk pembangkit diperoleh dari fasilitas *Floating Storage & Regasification Unit* (FSRU) yang dikelola oleh PT Jawa Satu Regas. Kapasitas *storage* sebesar 170.000 m^3, sedangkan kapasitas regasifikasi 300 MMSCFD.

PT Jawa Satu Power manages a Combined-Cycle Gas Turbine (CCGT) Steam and Gas Power Plant (PLTG Combined-Cycle Gas Turbine/CCGT) with a capacity of 1,760 MW (2x880 MW) to supply the electricity needs of the Java-Bali power generation system. Gas supply for the plant is obtained from the Floating Storage & Regasification Unit (FSRU) facility managed by PT Jawa Satu Regas. The storage capacity is 170,000 m^3, while the regasification capacity is 300 MMSCFD.

Pada Juni 2025 dilakukan injeksi dana strategis kepada *Citicore Renewable Energy Corporation* (CREC). Langkah investasi ini memberikan kontribusi signifikan terhadap penguatan kapasitas energi terbarukan, di mana pada akhir tahun 2025 CREC mencatatkan realisasi PLTS *energized* sebesar 669,30 MW.

In June 2025, a strategic capital injection was made to Citicore Renewable Energy Corporation (CREC). This investment significantly contributed to strengthening renewable energy capacity, with CREC achieving 669.30 MW of solar power plants by the end of 2025.

Sepanjang tahun 2025, PERTAMINA melalui Subholding Power & NRE berhasil memproduksi listrik sebesar 8.710,64 Gigawatt-hours (GWh), meningkat 2,78% dibandingkan dengan tahun 2024 sebesar 8.475,35 GWh. Kenaikan ini sejalan dengan pertumbuhan produksi panas bumi (PGE) sebesar 268,26 GWh serta kontribusi tambahan dari proyek baru CREC (*Palawan's Project*) sebesar 40,38 GWh.

Throughout 2025, PERTAMINA, through its Power & NRE Subholding, successfully produced 8,710.64 Gigawatt-hours (GWh) of electricity, a 2.78% increase compared to 8,475.35 GWh in 2024. This increase is in line with the growth in geothermal (PGE) production of 268.26 GWh and the additional contribution of 40.38 GWh from the new CREC (Palawan's Project).

Sedangkan terkait dengan kapasitas terpasang, pada tahun buku 2025 mencapai 3.226,42 MW. Kapasitas tersebut meningkat dibandingkan dengan tahun sebelumnya yang mencapai 2.557,12 MW. Pencapaian kapasitas tambahan tahun 2025 sebesar 669,30 MW berhasil terealisasi sepenuhnya melalui pengembangan proyek CREC.

Meanwhile, installed capacity in fiscal year 2025 reached 3,226.42 MW, representing an increase compared to 2,557.12 MW in the previous year. The additional capacity achievement of 669.30 MW in 2025 was fully realized through the development of CREC projects.

Pencapaian Pengembangan Bisnis

Sepanjang tahun 2025, Pertamina NRE terus mengembangkan bisnis EBT, yang antara lain berupa pembangkit listrik berbasis gas dan EBT, *energy efficiency & O&M services, Nature & Ecosystem Based Solutions* (NEBS), *New Renewable Energy* (NRE), *bioethanol,* dan *future business (electric vehicle* dan *hydrogren)* dengan milestone tercapai sebagai berikut:

1. PNRE telah menerbitkan Credit Carbon sejumlah 1.364.815 tonCO_2e dari sektor pembangkit listrik tenaga panas bumi dan biogas dan telah berhasil menjual 905.876 tonCO_2e.
2. Dalam upaya memperkuat ekspor dan kemitraan strategis, PNRE secara aktif melakukan formalisasi kerja sama melalui penandatanganan berbagai instrumen hukum sepanjang tahun 2025.
   a. Perjanjian Mengikat (*Binding Agreements*): PNRE telah mengamankan kesepakatan PJBL & PBGS PLTS Tahap II di KEK Sei Mangkei pada 7 Juli 2025 sebagai bentuk komitmen nyata dalam penyediaan energi terbarukan di kawasan industri.
   b. MoU & Penjajakan Kemitraan (*Non-Binding*): PNRE juga melakukan perluasan inisiasi bisnis melalui berbagai Joint Study dan Framework Agreement yang mencakup pengembangan:
      i. Solusi Rendah Karbon & Hidrogen: Kolaborasi bersama PLN NP, Grha Wahyu Kencana, serta Hyundai Motor Company untuk riset dan pengembangan teknologi masa depan.
      ii. Kemitraan Global & Regional: Penjajakan melalui Joint Study Agreement bersama Tidal Bridge B.V. dan CREC, serta kesepakatan NDA dengan entitas internasional seperti GE Vernova, Singapore LNG, dan Karbon Korea.
      iii. Ekosistem Berkelanjutan: Inisiasi kerja sama untuk *Battery Energy Storage System* (BESS) dengan PT Industri Baterai Indonesia, pengelolaan *Waste-to-Energy* dengan SUS *Environment*, hingga inisiatif *Nature Based Solutions* (NBS) di Kalimantan Timur untuk mendukung dekarbonisasi.
3. PNRE memperkuat portofolio regional melalui akuisisi saham *Citicore Renewable Energy Corporation* (CREC) di Filipina. Transaksi ini telah mencapai tahap closing pada 18 Juni 2025. Per Oktober 2025, proyek memasuki fase integrasi pascatransaksi yang dikelola secara intensif oleh tim Integration Office untuk memastikan sinergi operasional yang optimal. dengan kapasitas terpasang diakhir desember 2025 sebesar 669 MW termasuk layanan O&M.

Business Development Achievements

Throughout 2025, Pertamina NRE continued to develop its renewable energy business, including gas and renewable energy-based power plants, energy efficiency & O&M services, Nature & Ecosystem Based Solutions (NEBS), New Renewable Energy (NRE), bioethanol, and future business (electric vehicles and hydrogen) with the following milestones achieved:

1. PNRE has issued Carbon Credits amounting to 1,364,815 tonnes of CO_2e from the geothermal and biogas power generation sector and has successfully sold 905,876 tonnes of CO_2e.
2. In an effort to strengthen exports and strategic partnerships, PNRE actively formalized cooperation through the signing of various legal instruments throughout 2025.
   a. Binding Agreements: PNRE has secured the PJBL & PBGS agreement for Phase II of PLTS in the Sei Mangkei Special Economic Zone on July 7, 2025 as a form of real commitment in providing renewable energy in the industrial area.
   b. MoU & Partnership Exploration (Non-Binding): PNRE has also expanded business initiatives through various Joint Studies and Framework Agreements which include the development of:
      i. Low Carbon & Hydrogen Solutions: Collaboration with PLN NP, Grha Wahyu Kencana, and Hyundai Motor Company for research and development of future technologies.
      ii. Global & Regional Partnerships: Exploration through Joint Study Agreement with Tidal Bridge BV and CREC, as well as NDA agreements with international entities such as GE Vernova, Singapore LNG, and Karbon Korea.
      iii. Sustainable Ecosystem: Initiation of collaboration for Battery Energy Storage System (BESS) with PT Industri Baterai Indonesia, Waste-to-Energy management with SUS Environment, to the Nature Based Solutions (NBS) initiative in East Kalimantan to support decarbonization.
3. PNRE strengthened its regional portfolio through the acquisition of shares in Citicore Renewable Energy Corporation in the Philippines. The transaction reached its closing stage on June 18, 2025. As of October 2025, the project entered the post-transaction integration phase, which has been intensively managed by the Integration Office team to ensure optimal operational synergies, with installed capacity reaching 669 MW by the end of December 2025, including O&M services.

Integrated Marine Logistics

Kegiatan Usaha, Konsolidasi Kelompok Usaha, dan Area Operasi Segmen *Integrated Marine Logistics*

Kegiatan usaha PERTAMINA di bidang transportasi laut dilakukan melalui PT Pertamina International Shipping ("PIS"). Entitas ini mengelola Subholding Integrated Marine Logistics berdasarkan Surat Persetujuan Kementerian BUMN RI selaku Pemegang Saham No. S-616/MBU/08/2021 tanggal 25 Agustus 2021.

Kegiatan usahanya, antara lain angkutan laut maupun logistik yang dikelola secara terintegrasi, sehingga dapat mengoptimalkan biaya dalam rantai pasok energi. PIS tidak hanya melayani intragrup di lingkungan PERTAMINA, tetapi juga kebutuhan pihak ketiga, baik di dalam maupun luar negeri.

Pada tahun 2025, operasional Subholding Integrated Marine Logistics tercatat mengelola 481 armada, meliputi 110 kapal tanker, 1 kapal *floating storage offloading*, dan 370 kapal *marine support vessel*. Selain armada kapal, Perusahaan juga mengelola 6 (enam) terminal, baik terminal BBM, terminal LPG, maupun terminal terintegrasi (BBM & LPG).

Integrated Marine Logistics

Business Activities, Business Group Consolidation, and Operating Areas of Integrated Marine Logistics Segment

PERTAMINA's maritime transportation business is conducted through PT Pertamina International Shipping ("PIS"). This entity manages the Integrated Marine Logistics Subholding pursuant to Letter of Approval of Ministry of State-Owned Enterprises as a Shareholder No. S-616/MBU/08/2021 dated August 25, 2021.

Its business activities include maritime transportation and logistics, which are managed in an integrated manner, optimizing costs within the energy supply chain. PIS serves not only the Pertamina Group but also the needs of third parties, both domestically and internationally.

During 2025, the Integrated Marine Logistics Subholding's operations managed a fleet of 481 vessels, including 110 tankers, one floating storage and offloading vessel, and 370 marine support vessels. In addition to the fleet, the Company also managed six terminals: Fuel Oil terminals, LPG terminals, and integrated terminals (Fuel Oil and LPG).

Full Cycle Gas & LNG Business - Holding

Selain itu, PERTAMINA juga terus mendukung peluang pengembangan bisnis LNG di Indonesia melalui optimalisasi pemanfaatan aset kilang LNG yang dimiliki negara.

Pengelolaan bisnis LNG di PERTAMINA mencakup dua komponen utama, yaitu LNG Portfolio milik PERTAMINA serta pelaksanaan penugasan Pemerintah sebagai penjual LNG hulu bagian negara. Kedua komponen tersebut memiliki peran strategis dalam memastikan keberlanjutan pengelolaan bisnis LNG nasional.

Portofolio LNG PERTAMINA bersumber dari portofolio LNG internasional sebesar 3 MTPA, dengan tetap mengutamakan pemenuhan kebutuhan LNG domestik. Selain itu, Perusahaan juga melakukan kegiatan pemasaran LNG melalui kontrak jangka panjang yang telah dimiliki serta berbagai upaya optimalisasi komersial lainnya.

Untuk volume LNG Bontang tahun 2025, PERTAMINA menjalankan penugasan sebagai Penjual LNG Hulu Bagian Negara dari beberapa wilayah kerja di sekitar Kalimantan Timur, antara lain Muara Bakau, *East Sepinggan*, Rapak, Mahakam, *East Kalimantan* & Attaka dan Sanga Sanga. PERTAMINA berperan penting dalam pemasaran, implementasi kontrak, serta operasi lifting LNG milik negara dalam rangka meningkatkan penerimaan negara di tahun 2025 dengan volume LNG 3 MTPA.

In addition, PERTAMINA also continues to support LNG business development opportunities in Indonesia by optimizing the utilization of state-owned LNG refinery assets.

PERTAMINA's LNG business management encompasses two main components: PERTAMINA's LNG Portfolio and the completion of the government's assignment as the country's upstream LNG seller. Both components play a strategic role in ensuring the sustainability of the national LNG business.

PERTAMINA's LNG portfolio is sourced from an international LNG portfolio of 3 MTPA, while prioritizing meeting domestic LNG needs. Furthermore, the Company also conducts LNG marketing activities through long-term contracts and various other commercial optimization efforts.

For the Bontang LNG volume in 2025, PERTAMINA was assigned as the country's Upstream LNG Seller from several working areas around East Kalimantan, including Muara Bakau, East Sepinggan, Rapak, Mahakam, East Kalimantan & Attaka and Sanga Sanga. PERTAMINA plays a key role in the marketing, contract implementation, and lifting operations of state-owned LNG in order to increase state revenue in 2025 with an LNG volume of 3 MTPA.

Sepanjang tahun 2025, PERTAMINA sebagai penjual LNG bagian negara berhasil mencapai sejumlah kesepakatan komersial dengan pembeli domestik maupun internasional sampai dengan 6,1 MTPA untuk periode 2026 dan seterusnya, pembeli domestik tersebut berasal dari sektor kelistrikan, industri, serta LNG skala kecil. Secara keseluruhan di tahun 2025, PERTAMINA sebagai penjual LNG bagian negara mengelola 10 MTPA LNG yang mencakup eksisting kontrak dan kontrak baru jangka pendek, menengah dan panjang.

Throughout 2025, PERTAMINA, as the country's LNG seller, successfully reached several commercial agreements with domestic and international buyers totaling up to 6.1 MTPA for the period of 2026 and beyond. These domestic buyers came from the electricity, industrial, and small-scale LNG sectors. Overall, in 2025, PERTAMINA, as the country's LNG seller, managed 10 MTPA of LNG, encompassing existing contracts and new short-, medium-, and long-term contracts.

Selain bisnis LNG, di tahun 2025 PERTAMINA juga menjalankan penugasan sebagai penjual LPG hulu bagian negara dengan volume 21 ribu MT. LPG tersebut merupakan produk samping dari proses pemrosesan LNG di Kilang LNG Bontang. Pemasaran LPG dilakukan tehadap LPG yang tersisa setelah sebagian LPG digunakan untuk meningkatkan *heating value* LNG dalam proses produksi. Selanjutnya, LPG tersebut dipasarkan kepada PT Pertamina Patra Niaga untuk memenuhi kebutuhan LPG dalam negeri.

In addition to the LNG business, in 2025, PERTAMINA was also assigned as the country's upstream LPG seller, with a volume of 21,000 MT. This LPG is a byproduct of LNG processing at the Bontang LNG Refinery. LPG marketing is performed on the remaining LPG after some of it is used to increase the heating value of LNG in the production process. The LPG is then marketed to PT Pertamina Patra Niaga to meet domestic LPG demand.

Secara operasional, PERTAMINA melalui fungsi LNG Operation selalu mengedepankan proses pengapalan LNG dan LPG yang aman, tepat waktu, berkualitas, dan sesuai dengan ketentuan kontrak guna meminimalkan potensi risiko dan liabilities. Kelancaran kegiatan pengapalan tersebut didukung melalui koordinasi yang intensif dengan berbagai pemangku kepentingan, antara lain PT Badak NGL, SKK Migas, Bea Cukai, Direktorat Jenderal Migas Kementerian ESDM, Kementerian Perdagangan, Direktorat Metrologi, serta instansi terkait lainnya.

Operationally, PERTAMINA, through its LNG Operations function, consistently prioritizes safe, timely, high-quality LNG and LPG shipments, in accordance with contractual provisions, to minimize potential risks and liabilities. The smooth shipping process is supported by intensive coordination with various stakeholders, including PT Badak NGL, SKK Migas, Customs and Excise, the Directorate General of Oil and Gas at the Ministry of Energy and Mineral Resources, the Ministry of Trade, the Directorate of Metrology, and other relevant agencies.

Dalam pelaksanaan penugasan Pemerintah untuk penyediaan dan pendistribusian BBG berupa CNG untuk sektor transportasi, PERTAMINA juga menjalankan kegiatan penyaluran BBG melalui 19 aset SPBG yang beroperasi serta penyaluran gas bumi melalui jaringan gas di empat wilayah operasi.

In completing the Government's assignment to provide and distribute BBG in the form of CNG for the transportation sector, PERTAMINA also delivers BBG distribution activities through 19 operating SPBG assets as well as natural gas distribution through gas networks in four operating areas.

Sepanjang tahun 2025, PERTAMINA berhasil menjaga kontinuitas pasokan gas untuk kebutuhan SPBG dan jaringan gas rumah tangga ("Jargas") yang tersebar di berbagai wilayah Indonesia. Pasokan gas tersebut berasal dari wilayah kerja Pertamina *Group* maupun kontraktor lainnya dan disalurkan melalui jaringan pipa transmisi dan distribusi yang dikelola oleh afiliasi PERTAMINA dan Subholding Gas Group.

Throughout 2025, PERTAMINA successfully maintained a continuous supply of gas for gas stations (SPBGs) and household gas networks (Jargas) across Indonesia. This gas supply came from the Pertamina Group's working areas and other contractors and was distributed through a transmission and distribution pipeline network managed by PERTAMINA affiliates and the Gas Group Subholding.

Sepanjang tahun 2025 PERTAMINA telah menjalankan penugasan pengelolaan Jargas dengan realisasi volume sebesar 362 ribu MMBTU sedangkan SPBG dengan realisasi volume sebesar 1,4 juta MMBTU. Adapun sebagai upaya Pertamina untuk memperkuat dan mengoptimalkan kemampuan *stakeholder* management Pertamina *Group* dalam rangka mengutamakan penggunaan energi domestik, telah di tandatangani *Energy Resileince Commitment* dengan Sinergi Pertamina, PGN dan PPN untuk Konversi LPG ke Jargas/CNG pada tanggal 6 Agustus 2025 untuk melakukan Pengembangan dan implementasi Sinergi Bisnis Pasar CNG Pertamina antara PGN dan PPN dalam rangka meningkatkan pemanfaatan CNG melalui SPBG yang telah dibangun baik menggunakan dana APBN maupun investasi Pertamina *Group*.

Throughout 2025, PERTAMINA has conducted the management assignment of Jargas with a realized volume of 362 thousand MMBTU while SPBG with a realized volume of 1.4 million MMBTU. As an effort by Pertamina to strengthen and optimize the capabilities of stakeholder management of the Pertamina Group in order to prioritize the use of domestic energy, an Energy Resilience Commitment has been signed with the Synergy of Pertamina, PGN and PPN for the Conversion of LPG to Jargas/CNG on August 6, 2025 to conduct the Development and implementation of Pertamina's CNG Market Business Synergy between PGN and PPN in order to increase the use of CNG through SPBG which has been built using both APBN funds and investment of the Pertamina Group.

Selain itu, pada tahun 2025 PERTAMINA juga menjalankan penugasan sebagai penjual gas hulu bagian negara dari beberapa wilayah kerja di sekitar Kalimantan Timur dan Sumatra, yang disalurkan kepada pembeli gas domestik maupun pasar ekspor.

In addition, in 2025, PERTAMINA was also assigned as the country's upstream gas seller from several working areas around East Kalimantan and Sumatra, which was distributed to domestic gas buyers and the export market.

Di samping kinerja operasional tersebut, PERTAMINA juga melakukan pengelolaan sejumlah aset strategis, antara lain Kilang LPG Mundu, BMN Aktiva Kilang LNG Badak, 48 aset SPBG, serta 39 wilayah jaringan distribusi gas bumi di seluruh Indonesia.

In addition to such operational performance, PERTAMINA also manages a number of strategic assets, including the Mundu LPG Refinery, the Badak LNG Refinery Assets, 48 SPBG assets, and 39 natural gas distribution network areas throughout Indonesia.

Sebagai mitra pengelola BMN Aktiva Kilang LNG Badak, PERTAMINA terus berupaya mengoptimalkan pemanfaatan aset kilang LNG baik untuk kegiatan pemrosesan gas maupun untuk pengembangan bisnis di masa mendatang. Pengembangan tersebut antara lain mencakup inisiatif LPG Hub, LPG Bunkering, LNG Hub, serta LNG Bunkering, yang diharapkan dapat memberikan nilai tambah bagi negara sekaligus mendukung ketahanan energi nasional.

As a managing partner of the Badak LNG Plant Assets, PERTAMINA continues to optimize the utilization of LNG plant assets for both gas processing activities and future business development. This development includes the LPG Hub, LPG Bunkering, LNG Hub, and LNG Bunkering initiatives, which are expected to give added value to the country and support national energy security.

Strategi Pengembangan dan Kinerja Operasional Segmen Holding

Kinerja penjualan LNG *Seller Representative* serta LNG Portfolio PERTAMINA hingga akhir tahun 2025 dapat dilihat di bawah ini.

Saat ini pelaksanaan penyaluran gas dilakukan oleh PGN selaku afiliasi yang telah diberikan kuasa pengelolaan oleh Pertamina melalui Perjanjian Kerjasama Pengelolaan dan Penyaluran Gas JTB.

Currently, the delivery of gas distribution is performed by PGN as an affiliate that has been given power to manage by Pertamina through the Partnership Agreement on JTB Gas Management and Distribution.

Imbalan Jasa Pemasaran Marketing Service Fee	9	0,01	25	0,03	(16)	(64,00)
Pendapatan Usaha dari Aktivitas Operasi Lainnya Operating Income from Other Operating Activities	2.540	3,58	2.122	2,82	418	19,70
Jumlah Penjualan dan Pendapatan Usaha Lainnya **Total Sales and Other Operating Revenues**	**70.894**	**100,00**	**75.327**	**100,00**	**(4.433)**	**(5,89)**

Pada tahun 2025, Perusahaan membukukan jumlah penjualan dan pendapatan usaha lainnya sebesar USD70,89 miliar, mengalami penurunan 5,89% dibandingkan jumlah penjualan dan pendapatan usaha lainnya tahun 2024 sebesar USD75,33 miliar. Penurunan ini terutama disebabkan penurunan harga komoditas minyak dan gas yang berdampak pada penurunan penjualan domestik sebesar USD1,27 miliar dan penurunan penjualan ekspor sebesar USD1,98 miliar. Selain itu, penurunan pendapatan dana kompensasi BBM sebesar USD1,29 miliar seiring penyesuaian kebijakan Pemerintah. Faktor-faktor ini sebagian diimbangi oleh kenaikan pendapatan dari aktivitas operasi lainnya sebesar USD418 juta.

In 2025, the Company recorded sales and other operating revenues of USD70.89 billion, a 5.89% decrease compared to sales and other operating revenues of USD75.33 billion in 2024. This decrease was primarily due to the decline of oil and gas commodity prices, which resulted in a USD1.27 billion decrease in domestic sales and a USD1.98 billion decrease in export sales. Furthermore, there was a USD1.29 billion decrease in fuel compensation fund revenue due to the adjustments to government policies. These factors were partially offset by an increase of revenue from other operating activities of USD418 million.

Beban Pokok Penjualan dan Beban Langsung Lainnya

Beban pokok penjualan dan beban langsung lainnya terdiri dari beban pokok penjualan, beban produksi hulu dan *lifting*, beban eksplorasi, dan beban dari aktivitas operasi. Sedangkan beban usaha terdiri dari beban penjualan dan pemasaran, serta beban umum dan administrasi.

Cost of Goods Sold and Other Direct Expenses

Cost of goods sold and other direct expenses consist of cost of goods sold, upstream production and lifting costs, exploration costs, and expenses from operating activities. Operating expenses consist of sales and marketing expenses, and general and administrative expenses.

Kinerja Beban Pokok Penjualan dan Beban Langsung Lainnya, Periode 2024-2025

Beban pokok penjualan dan beban langsung lainnya tahun 2025 sebesar USD60,63 miliar, turun 7,07% atau setara dengan USD4,62 miliar dibandingkan dengan tahun 2024 sebesar USD65,25 miliar. Peningkatan efisiensi pengadaan dan manajemen rantai pasok juga berkontribusi pada penurunan total beban pokok penjualan, meskipun beban produksi hulu dan *lifting* mengalami peningkatan sebesar USD251 juta seiring peningkatan volume produksi.

Cost of sales and other direct expenses in 2025 amounted to USD60.63 billion, representing a decrease of 7.07% or equivalent to USD4.62 billion compared to USD65.25 billion in 2024. Improvements in procurement efficiency and supply chain management also contributed to the decline in total cost of sales, despite an increase of USD251 million in upstream production and lifting expenses in line with higher production volumes.

Beban Usaha
Beban usaha terdiri dari beban penjualan dan pemasaran, serta beban umum dan administrasi.

Operating Expenses
Operating expenses consist of sales and marketing expenses, as well as general and administrative expenses.

Kinerja Beban Usaha, Periode 2024-2025
Performance of Operating Expenses, 2024-2025 Period

dalam USD-juta, kecuali dinyatakan lain
in USD-million, unless otherwise stated

Pos Akun Account Item	2025		2024		Kenaikan (Penurunan) Increase (Decrease)	
	Jumlah Total	Kontribusi Contribution (%)	Jumlah Total	Kontribusi Contribution (%)	Nominal Amount	Persentase Percentage (%)
	(1)		(2)		(3 = 1-2)	(3/2)
Beban Penjualan dan Pemasaran Sales and Marketing Expenses	1.245	32,12	1.194	32,38	51	4,27
Beban Umum dan Administrasi General and Administrative Expenses	2.631	67,88	2.493	67,62	138	5,54
Jumlah Beban Usaha **Total Operating Expenses**	**3.876**	**100,00**	**3.687**	**100,00**	**189**	**5,13**

Beban usaha tahun 2025 sebesar USD3,88 miliar, meningkat 5,15% atau setara dengan USD189 juta dibandingkan dengan tahun 2024 sebesar USD3,69 miliar. Hal ini disebabkan kenaikan beban umum dan administrasi sebesar USD138 juta yang antara lain disebabkan oleh peningkatan biaya personel dan digitalisasi proses bisnis, serta kenaikan beban penjualan dan pemasaran sebesar USD51 juta seiring ekspansi distribusi dan infrastruktur pemasaran di berbagai wilayah.

Operating expenses in 2025 will be USD3.88 billion, an increase of 5.15%, equivalent to USD189 million, compared to USD3.69 billion in 2024. This is due to a USD138 million increase in general and administrative expenses, partly due to increase of costs in personnel and the digitalization of business processes, as well as a USD51 million increase in sales and marketing expenses due to the expansion of distribution and marketing infrastructure in various regions.

Pendapatan dan/atau Beban Keuangan

Financial Incomes and/or Expenses

Kinerja Pendapatan dan/atau Beban Keuangan, Periode 2024-2025
Performance of Financial Incomes and/or Expenses, 2024-2025 Period

dalam USD-juta, kecuali dinyatakan lain
in USD-million, unless otherwise stated

Pos Akun Account Item	2025	2024	Kenaikan (Penurunan) Increase (Decrease)	
			Nominal Amount	Persentase Percentage (%)
	(1)	(2)	(3=1-2)	(3/2)
Pendapatan Keuangan Financial Incomes	1.012	1.270	(258)	(20,31)
Beban Keuangan Financial Expenses	(1.214)	(1.387)	173	(12,47)
Jumlah Pendapatan (Beban) Keuangan Total of Financial Income (Expenses)	**(202)**	**(117)**	**(85)**	**72,65**

Pada tahun 2025, PERTAMINA mencatatkan beban keuangan neto sebesar USD202 juta, meningkat 72,65% atau setara dengan USD85 juta dibandingkan tahun 2024 di mana Perusahaan mencatatkan beban keuangan neto sebesar USD117 juta. Hal ini disebabkan penurunan pendapatan keuangan sebesar USD258 juta akibat penurunan rata-rata saldo penempatan kas dan tingkat bunga, meskipun beban keuangan juga menurun sebesar USD173 juta seiring penurunan saldo pinjaman dan optimasi struktur utang Perusahaan.

In 2025, PERTAMINA recorded net financial expenses of USD202 million, an increase of 72.65% or equivalent to USD85 million compared to 2024, when the Company recorded net financial expenses of USD117 million. This was due to a decrease in financial income of USD258 million due to a decrease in the average cash placement balance and interest rate, despite the financial expenses was also decreased by USD173 million due to a decrease in the Company's loan balance and optimization of its debt structure.

Bagian atas Laba Neto Entitas Asosiasi dan Ventura Bersama

Pada tahun 2025, PERTAMINA mencatatkan bagian atas laba neto entitas asosiasi dan ventura bersama sebesar USD328 juta, meningkat 21,03% atau setara dengan USD57 juta dibandingkan tahun sebelumnya sebesar USD271.

Share of Net Profit of Associates and Joint Ventures

In 2025, PERTAMINA recorded a share of net profit of associates and joint ventures of USD328 million, an increase of 21.03% or equivalent to USD57 million compared to the previous year of USD271.

Beban Lain-lain

Beban lain-lain neto pada tahun 2025 sebesar USD9 juta, menurun 98,89% atau setara dengan USD804 juta dibandingkan tahun sebelumnya sebesar USD813 juta. Perbaikan signifikan ini terutama didorong oleh pembalikan provisi penurunan nilai aset tetap sebesar USD1,36 miliar di tahun 2025, berbanding terbalik dengan pembentukan provisi sebesar USD1,37 miliar di tahun 2024. Perusahaan juga mencatat keuntungan atas penjualan anak perusahaan dan entitas asosiasi sebesar USD249 juta yang tidak terdapat di tahun sebelumnya, serta peningkatan pemulihan penurunan nilai piutang sebesar USD121 juta.

Other Expenses

Other net expenses in 2025 amounted to USD9 million, a decrease of 98.89% or equivalent to USD804 million compared to the previous year of USD813 million. This significant improvement was primarily driven by the reversal of the provision for impairment of fixed assets value of USD1.36 billion in 2025, in contrast to the provision formation of USD1.37 billion in 2024. The Company also recorded a gain on the sale of subsidiaries and associated entities of USD249 million which was not present in the previous year, as well as an increase in the recovery of impairment of receivables of USD121 million.

Perbaikan di atas sebagian diimbangi oleh beberapa beban yang meningkat signifikan, antara lain kenaikan provisi penurunan nilai aset minyak dan gas sebesar USD880 juta seiring penyesuaian estimasi cadangan terbukti dan asumsi harga jangka panjang, serta kenaikan provisi sengketa pajak sebesar USD472 juta.

The improvements above were partially offset by several significant increases in expenses, including an increase in the provision for impairment of oil and gas assets of USD880 million due to adjustments to proven reserve estimates and long-term price assumptions, and an increase in the provision for tax disputes of USD472 million.

Beban Pajak Penghasilan

Beban pajak penghasilan Perusahaan tahun 2025 sebesar USD2,73 miliar, meningkat USD768 juta atau 39,14% dibandingkan tahun 2024 sebesar USD1,96 miliar. Kenaikan tersebut terutama disebabkan oleh peningkatan laba kena pajak, pemulihan impairment, dan pembalikan aset pajak tangguhan atas *tax loss carryfoward* yang tidak dapat dipulihkan pada entitas entitas anak PT Kilang Pertamina Internasional ("KPI") akibat aksi korporasi merger di entitas anak pada Februari 2026 yang mengakibatkan pembubaran KPI.

Income Tax Expenses

The Company's income tax expense for 2025 amounted to USD2.73 billion, an increase of USD768 million or 39.14% compared to USD1.96 billion in 2024. The increase was primarily due to an increase in taxable income, impairment recovery, and the reversal of deferred tax assets on unrecoverable tax loss carryforwards in its subsidiary PT Kilang Pertamina Internasional ("KPI") due to the corporate merger action in the subsidiary in February 2026 which resulted in the dissolution of KPI.

Laba Bersih

Melalui upaya peningkatan kinerja operasional dan upaya optimasi serta efisiensi biaya, pada tahun 2025 PERTAMINA membukukan laba bersih atau laba tahun berjalan yang dapat diatribusikan kepada pemilik entitas induk sebesar USD3,35 miliar, mengalami kenaikan 7,19% atau setara dengan USD225 juta dibandingkan dengan tahun 2024 sebesar USD3,13 miliar. Kenaikan ini disebabkan kenaikan laba bruto sebesar USD182 juta, penurunan beban keuangan bersih, dan penurunan beban lain-lain secara signifikan sebesar USD804 juta, meskipun terjadi peningkatan beban pajak penghasilan sebesar USD768 juta dan peningkatan beban umum dan administrasi.

Net Profit

Net Profit Through efforts to improve operational performance and optimization as well as cost-efficiency means, PERTAMINA recorded a net profit or profit for the year that may be attributable to owners of the parent entity of USD3.35 billion in 2025, an increase of 7.19% or equivalent to USD225 million compared to USD3.13 billion in 2024. This increase was due to an increase of gross profit of USD182 million, a decrease of net financial expenses, and a significant decrease of other expenses of USD804 million, despite an increase of income tax expenses of USD768 million and an increase of general and administrative expenses.

EBITDA

Perusahaan memiliki aspirasi agar dapat bernilai USD100 miliar. Dalam rangka merealisasikannya, EBITDA Perusahaan harus mencapai sekitar USD20 miliar. Dengan demikian, kinerja EBITDA menjadi sangat penting.

EBITDA

The company aspires to be valued at USD100 billion. To achieve this, its EBITDA must reach approximately USD20 billion. Therefore, EBITDA performance becomes very important.

Untuk mendukung inisiatif tersebut, Perusahaan terus menjajaki pasar energi terbarukan dan bisnis hijau. Sebagai bukti komitmen tersebut, Perusahaan melakukan penurunan emisi, green investment, dan lain sebagainya, sehingga pasar dapat melihat bahwa Perusahaan bersungguh-sungguh menekuni energi hijau.

To support this initiative, the Company continues to explore the renewable energy and green business markets. As a proof to this commitment, the Company has implemented emission reductions, green investments, and other initiatives, demonstrating to the market that the Company has an earnest commitment to pursue green energy.

Perusahaan membukukan EBITDA tahun 2025 sebesar USD11,43 miliar, mengalami kenaikan 5,91% atau sebesar USD638 juta dibandingkan dengan tahun 2024 sebesar USD10,79 miliar. Hal ini terutama disebabkan peningkatan laba bruto sebesar USD182 juta dan perbaikan efisiensi operasional di seluruh segmen usaha, didukung oleh penurunan beban lain-lain secara substansial. Pencapaian ini sejalan dengan upaya Perusahaan untuk terus meningkatkan nilai dan mendekati target EBITDA jangka menengah.

The Company recorded EBITDA of USD11.43 billion in 2025, a 5.91% increase, or USD638 million, compared to USD10.79 billion in 2024. This increase was primarily due to a USD182 million increase in gross profit and improved operational efficiency across all business segments, supported by a substantial reduction of other expenses. This achievement aligns with the Company's efforts to continuously increase value and approach its medium-term EBITDA target.

Penghasilan Komprehensif Lain

Perusahaan membukukan penghasilan komprehensif lain tahun 2025 sebesar USD3,12 miliar, mengalami penurunan 3,03% atau setara dengan USD98 juta dibandingkan dengan tahun sebelumnya sebesar USD3,22 miliar. Penurunan ini disebabkan kerugian komprehensif lainnya bersih sebesar USD562 juta pada tahun 2025, meningkat dibandingkan kerugian komprehensif lainnya sebesar USD229 juta pada tahun 2024. Kenaikan kerugian komprehensif lainnya ini terutama disebabkan oleh kenaikan kerugian pengukuran kembali liabilitas imbalan pasti sebesar USD115 juta dan kerugian selisih kurs penjabaran laporan keuangan dalam mata uang asing.

Other Comprehensive Incomes

Other Comprehensive Income The Company recorded other comprehensive income in 2025 of USD3.12 billion, a decrease of 3.03% or equivalent to USD98 million compared to the previous year of USD3.22 billion. This decrease was due to other comprehensive net loss of USD562 million in 2025, an increase compared to other comprehensive loss of USD229 million in 2024. The increase in other comprehensive loss was primarily due to an increase in the loss on remeasurement of defined benefit liabilities of USD115 million and foreign exchange losses on the elaboration of financial statements in foreign currencies.

Kemampuan Perusahaan dalam Menghasilkan Keuntungan

Untuk dapat mengukur kemampuan dalam menjaga profitabilitasnya, Perusahaan menggunakan beberapa rasio profitabilitas yang dapat dilihat pada tabel di bawah ini.

Company's Ability to Generate Profits

To be able to measure its ability to maintain profitability, the Company uses several profitability ratios which can be seen in the table below.

Kinerja Rasio Profitabilitas, Periode 2024-2025
Performance of Profitability Ratio, 2024-2025 Period

Rasio Ratio	2025 (%)	2024 (%)	Selisih Difference (%)
	(1)	(2)	(1-2)
Tingkat Pengembalian Aset Return on Assets	3,69	3,45	0,24
Tingkat Pengembalian Ekuitas Rate of Return on Equity	8,23	7,96	0,27
Margin Laba Profit Margin	4,73	4,15	0,58
Perputaran Total Aset Total Asset Turnover	78,13	83,25	(5,12)

Kinerja profitabilitas Perusahaan pada tahun 2025 menunjukkan perbaikan di hampir seluruh dimensi. *Margin* laba bersih meningkat dari 4,15% menjadi 4,73%, mencerminkan efektivitas pengendalian biaya di tengah penurunan pendapatan. Perbaikan margin ini mendorong kenaikan ROA dari 3,45% menjadi 3,69% dan ROE dari 7,96% menjadi 8,23%, yang masing-masing menunjukkan peningkatan efisiensi pemanfaatan aset dan imbal hasil bagi pemegang saham. Di sisi lain, perputaran total aset menurun dari 83,0% menjadi 78,0%, seiring ekspansi basis aset untuk mendukung pertumbuhan kapasitas produksi sementara pendapatan terkoreksi akibat penurunan harga komoditas - sehingga kenaikan profitabilitas pada tahun 2025 lebih didorong oleh perbaikan margin dibandingkan efisiensi penggunaan aset.

Profitability performance of the Company in 2025 showed improvements across almost all dimensions. Net profit margin increased from 4.15% to 4.73%, reflecting effective cost control amidst declining revenue. This margin improvement drove ROA up from 3.45% to 3.69% and ROE up from 7.96% to 8.23%, respectively, indicating improved asset utilization efficiency and shareholder returns. Meanwhile, total asset turnover decreased from 83.0% to 78.0%, as the asset base expanded to support production capacity growth while revenue was corrected due to declining commodity prices-thus, the increase in profitability in 2025 was driven more by margin improvements than asset utilization efficiency.

INVESTASI BARANG MODAL
Capital Goods Investment

Ikatan yang Material untuk Investasi Barang Modal
Sepanjang tahun 2025, PERTAMINA tidak memiliki ikatan yang material untuk investasi barang modal.

Material Bonds for Capital Goods Investment
Throughout 2025, PERTAMINA has no material commitments for capital goods investment.

Pada tahun 2025 realisasi kinerja Subholding Upstream lebih rendah dari target, di mana realisasi produksi Minyak Mentah sebesar 555,92 MBOPD (97,2% dari target) dan Gas Bumi sebesar 2.757,35 MMSCFD (97,1% dari target). Ketidaktercapaian pada produksi terutama dikarenakan oleh adanya *gap entry run rate* dan *unplanned shutdown*, kondisi *force majeur* berupa banjir, serta pembatasan produksi di JTB.

In 2025, the Upstream Subholding's performance was lower than the target, with crude oil production reaching 555.92 MBOPD (97.1% of the target) and natural gas production reaching 2,757.35 MMSCFD (97.6% of the target). The production shortfall was primarily due to gaps in entry run rates and unplanned shutdowns, force majeure events such as flooding, and production restrictions at JTB.

Kinerja Subholding Refining & Petrochemical (R&P) pada tahun 2025 menunjukkan hasil yang baik, didorong oleh tingginya volume intake, yaitu sebesar 333,36 MMbbl (105,8% dari target) dengan crude intake sebesar 319,35 MMbbl (105,1% dari target). Tingginya intake sejalan dengan total output kilang yang mencapai 314,74 MMbbl (105,8% dari target), di mana produksi Bahan Bakar Minyak (BBM/BBMK) melampaui target di angka 261,18 MMbbl (102,5% dari target), Produk Lainnya tercapai hingga 25,42 MMbbl (246,9% dari target), dan produk Non-BBM sejumlah 28,15 MMbbl (86,6% dari target). Realisasi *Yield Valuable Product* sebesar 83,74% (100,7% dari target) yang menunjukkan bahwa dari total output yang dihasilkan, *output valuable product* masih di atas target.

The performance of the Refining & Petrochemical (R&P) Subholding in 2025 showed good results, driven by high intake volume, which was 333.36 MMbbl (105.8% of the target) with crude intake of 319.35 MMbbl (105.1% of the target). The high intake is in line with the total refinery output which reached 314.74 MMbbl (105.8% of the target), where Fuel Oil (Fuel Oil/Conventional Fuel Oil) production exceeded the target at 261.18 MMbbl (102.5% of the target), Other Products reached 25.42 MMbbl (246.9% of the target), and Non-Fuel Oil products amounted to 28.15 MMbbl (86.6% of the target). The realization of Yield Valuable Product was 83.74% (100.7% of the target), which shows that of the total output produced, the valuable product output remained above the target.

Kinerja Subholding Commercial & Trading (C&T) hingga Triwulan IV tahun 2025 menunjukkan pencapaian yang bervariasi, di mana realisasi penjualan Bahan Bakar Minyak (BBM) Public Service Obligation (PSO) - JBT tercatat sebesar 18.731,38 Ribu KL (terjaga 99,8% dari target). Di sisi lain, penyaluran BBM PSO - JBKP mencatat realisasi yang sedikit lebih rendah, yaitu sebesar 28.063,55 Ribu KL (89,9% dari target). Berbeda dengan penjualan BBM yang masih berada di bawah angka 100%, realisasi penjualan LPG PSO mencapai 15.178,80 Ribu KL (104,5% dari target).

The performance of the Commercial & Trading (C&T) Subholding until the fourth quarter of 2025 showed varied achievements, where the realization of Public Service Obligation (PSO) - JBT Fuel Oil (BBM) sales was recorded at 18,731.38 thousand KL (maintained at 99.8% of the target). On the other hand, the distribution of PSO - JBKP fuel oil recorded a slightly lower realization, namely 28,063.55 thousand KL (89.9% of the target). In contrast to fuel oil sales which remained below 100%, the realization of PSO LPG sales reached 15,178.80 thousand KL (104.5% of the target).

Kinerja Subholding Gas pada tahun 2025 mencatatkan realisasi Niaga Gas sebesar 836,02 BBTUD (91,2% dari target) terutama dipengaruhi keterbatasan pasokan gas pipa, rendahnya daya beli pelanggan terhadap pasokan LNG, serta sejumlah gangguan pasokan akibat pemeliharaan terencana maupun tidak terencana oleh pemasok gas PGN, yang semakin menambah ketidakseimbangan pasokan dan permintaan. Selain itu, sepanjang tahun 2025, Perseroan berhasil menjalankan bisnis *trading* internasional dengan melakukan penjualan 7 kargo LNG atau setara 58,90 BBTUD. Pencapaian dari bisnis transmisi gas di tahun 2025 tercatat sebesar 1.609,29 MMSCFD atau berhasil mencapai 111,22% dari target 2025 yang dikontribusikan dari berbagai wilayah operasi. Tren positif pada sektor transmisi ini juga sejalan dengan pencapaian produksi LPG yang sukses mencapai angka 42,86 Ribu Ton (117,4% dari target).

The Gas Subholding's performance in 2025 recorded Gas Trading realization of 836.02 BBTUD (91.2% of the target), primarily affected by limited pipeline gas supply, customers' low purchasing power for LNG supply, as well as several supply disruptions resulting from both planned and unplanned maintenance activities by PGN's gas suppliers, which further exacerbated the supply-demand imbalance. In addition, throughout 2025, the Company successfully carried out its international trading business through the sale of 7 LNG cargoes, equivalent to 58.90 BBTUD. Meanwhile, gas transmission business performance in 2025 reached 1,609.29 MMSCFD, achieving 111.22% of the 2025 target, with contributions from various operational areas. This positive trend in the transmission sector was also aligned with LPG production performance, which successfully reached 42.86 thousand tons, or 117.4% of the target.

Kinerja Subholding Power & New Renewable Energy (PNRE) pada tahun 2025 mencatatkan kinerja di atas target dikarenakan Realisasi Gas to Power yang mencapai 3.505,29 GWh (141,31% dari target) atas tingginya penyerapan oleh offtaker. Realisasi Panas Bumi berhasil mencapai 5.095,48 GWh (103,82% dari target) dikarenakan PLTP Lumut Balai II sudah beroperasi secara penuh. Di samping itu realisasi EBT Lainnya mencapai 109,86 GWh (144,08% dari target) disebabkan oleh akuisisi terhadap Citicore Renewable Energy Corporation (CREC) di bulan Juni 2025, dimana PNRE mengakui realisasi produksi dari CREC.

The performance of the Power & New Renewable Energy (PNRE) Subholding in 2025 exceeded the target, primarily driven by the realization of Gas-to-Power generation, which reached 3,505.29 GWh (141.31% of the target) due to high absorption by offtakers. Geothermal realization also reached 5,095.48 GWh (103.82% of the target), supported by the full operation of the Lumut Balai II Geothermal Power Plant. In addition, the realization of Other New and Renewable Energy reached 109.86 GWh (144.08% of the target), attributable to the acquisition of Citicore Renewable Energy Corporation (CREC) in June 2025, through which PNRE recognized production realization from CREC.

Kinerja operasional Subholding Integrated Marine & Logistics (IML) di atas target atas realisasi kargo domestik 110,33 juta KL (123,2% dari target), sedangkan kargo internasional tercapai 61,73 juta KL (94,9% dari target).

The operational performance of the Integrated Marine & Logistics (IML) Subholding was above the target for the realization of domestic cargo of 110.33 million KL (123.2% of the target), while international cargo reached 61.73 million KL (94.9% of the target).

Pencapaian Target Investasi

Investment Target Achievement

Kinerja Pencapaian Target Investasi Tahun 2025
Performance of Investment Target Achievement in 2025

dalam USD-juta
in USD-million

Perihal Description	Realisasi 2025 2025 Realization	Target 2025	Pencapaian Realisasi Terhadap target 2025 Achievement of Realization Against 2025 Target
	(1)	(2)	(1:2)
Pengembangan Usaha Business Development	5.279,98	6.124,08	86,22
Non Pengembangan Usaha Non-Business Development	1.068,62	1.255,24	85,13
Anorganik Inorganic	263,27	2.049,98	12,84
Jumlah Total	**6.611,87**	**9.429,30**	**70,12**

Realisasi total investasi USD6.611,87 juta (70,12% dari RKAP 2025 USD9.429,30 juta) terdiri dari investasi Pengembangan Usaha USD5.279,98 juta (86,22% dari RKAP 2025 USD6.124,08 juta), Non Pengembangan Usaha USD1.068,62 juta (85,13% dari RKAP 2025 USD1.255,24 juta), dan Anorganik USD263,27 juta (12,84% dari RKAP 2025 USD2.049,98 juta)

The total investment realization of USD6,611.87 million (70.12% of the 2025 RKAP of USD9,429.30 million) consists of investment to Business Development of USD5,279.98 million (86.22% of the 2025 RKAP of USD6,124.08 million), Non-Business Development of USD1,068.62 million (85.13% of the 2025 RKAP of USD1,255.24 million), and Inorganic of USD263.27 million (12.84% of the 2025 RKAP of USD2,049.98 million).

Pencapaian realisasi investasi TW IV 2025 sebesar 70,12% dari target RKAP TW IV 2025. Adapun Deviasi penyerapan anggaran investasi tahun 2025 dengan Target RKAP 2025 disebabkan oleh mundurnya transaksi M&A di Subholding Upstream, proyek kilang RDMP RU V Balikpapan di Subholding Refining & Petrochemical, proyek pembangkit listrik di Subholding Power and New Renewable Energy, proyek pengeboran sumur gas di Subholding Gas dan beberapa proyek akuisisi di Portofolio/Anak Perusahaan yang tidak dilanjutkan karena tidak adanya kesepakatan nilai valuasi dan karena adanya arahan strategis dari Danantara.

The achievement of investment realization in Q4 2025 was 70.12% from the Q4 2025 RKAP target. The deviation of investment budget absorption in 2025 with the 2025 RKAP target was caused by the postponement of M&A transactions in the Upstream Subholding, the RDMP RU V Balikpapan refinery project in the Refining & Petrochemical Subholding, the power plant project in the Power and New Renewable Energy Subholding, the gas well drilling project in the Gas Subholding and several acquisition projects in the Portfolio/Subsidiaries that were not continued due to the lack of agreement on valuation values and due to strategic direction from Danantara.

Posisi Keuangan Financial Position			
Aset Lancar Current assets	36.657	31.948	114,74
Aset Tidak Lancar Non-Current Assets	54.973	67.229	81,77
Liabilitas Liabilities	47.017	52.575	89,43
Ekuitas Equity	44.613	46.602	95,73
Struktur Modal dan Rasio Permodalan Capital Structure and Capital Ratio			
Jumlah ekuitas (USD-juta) Total equity (USD-million)	44.613	46.602	95,73
ROIC (%)	6,53	6,31	103,53
WACC (%)	4,17	6,02	69,22

- Realisasi penjualan dan pendapatan usaha lainnya USD70.894juta atau 94,69% dari target 2025 secara mayoritas berasal dari kontribusi penjualan dalam negeri minyak mentah, gas, energi panas bumi dan hasil minyak.
- Realisasi jumlah beban pokok penjualan dan beban langsung lainnya USD60.632 juta atau 94,06% dari target 2025 sejalan dengan realisasi penjualan YTD Desember 2025.
- Realisasi beban penjualan dan pemasaran USD1.244 juta (66,83% dari target 2025).
- Realisasi beban umum dan administrasi USD2.631 juta (64,29% dari target 2025). Hal ini dikontribusi rendahnya realisasi pada Holding dan Pertamina Hulu Energi sejalan dengan rendahnya realisasi pada biaya jasa konsultan.
- Realisasi laba bersih tahun 2025 Audited USD3.682 juta atau 138,59% dari target 2025. Pencapaian ini terutama dikontribusi dari penurunan beban usaha.
- Realisasi jumlah Aset Lancar per 31 Desember 2025 USD36.657 juta (114,74% dari target 2025), terutama disebabkan peningkatan pada kas dan piutang.
- Realisasi jumlah Aset Tidak Lancar per 31 Desember 2025 Audited USD54.974 juta (81,77% dari target 2025), terutama disebabkan nihilnya Piutang dari Pemerintah setelah pembayaran Dana Kompensasi BBM 2024, serta turunnya asset pajak dan investasi.

- Realization of sales and other operating revenues of USD 70,894 million or 94.69% of the 2025 target was mostly derived from the contributions made by domestic sales of crude oil, gas, geothermal energy and oil products.
- Realization of total cost of goods sold and other direct expenses of USD 60,632 million or 94.06% of the 2025 target in line with the realization of YTD sales in December 2025.
- Realization of sales and marketing expenses of USD 1,244 million (66.83% of the 2025 target).
- Realization of general and administrative expenses of USD 2,631 million (64.29% of the 2025 target). This was contributed to by the low realization at the Holding and Pertamina Hulu Energi in line with low realization of consultant service fees.
- Realization of 2025 Audited net profit of USD3,682 million or 138.59% of the 2025 target. This achievement was mainly contributed by the decrease in operating expenses.
- Realization of Current Assets as of December 31, 2025 of USD36,657 million (114.74% of the 2025 target), mainly due to an increase in cash and receivables.
- Realization of Non-Current Assets as of December 31, 2025 Audited of USD54,974 million (81.77% of the 2025 target), mainly due to the absence of Receivables from the Government after the payment of the 2024 Fuel Compensation Fund, as well as a decrease in tax and investment assets.

TINGKAT KESEHATAN PERUSAHAAN
Corporate Health Level

Peringkat (rating) yang disampaikan dalam rangka penilaian tingkat kesehatan adalah pemeringkatan yang dilakukan oleh Moody's Ratings yang diterbitkan pada tanggal 5 Mei 2026 dengan hasil Peringkat Akhir (Final Rating) pada Baa2. Selain itu, terdapat pemeringkatan yang dilakukan oleh Fitch Ratings yang diterbitkan pada tanggal 29 Mei 2026 dengan hasil Peringkat Akhir (Final Rating) pada BBB. Dengan demikian, Tingkat Kesehatan untuk PT Pertamina (Persero) pada tahun 2025 adalah "Sangat Sehat" (AAA) sebagaimana diatur dalam Peraturan Menteri No. PER-2/MBU/03/2023.

The rating submitted in order to assess the health level was performed by Moody's Ratings which was issued on May 5, 2026 with the Final Rating result at Baa2. Besides, a rating performed by Fitch Ratings was also found, which was issued on May 29, 2026 with the final rating at BBB. Therefore, the Health Level for PT Pertamina (Persero) in 2025 is "Very Healthy" (AAA) as regulated in Ministerial Regulation No. PER-2/MBU/03/2023.

PERUBAHAN KEBIJAKAN AKUNTANSI
Amendments to Accounting Policies

Tidak terdapat perubahan kebijakan akuntansi pada laporan keuangan Perusahaan pada tahun buku 2025.

There are no amendments to accounting policies in the Company's financial statements for fiscal year 2025.

PROSPEK USAHA TAHUN 2026
Business Prospects for 2026

Memasuki tahun 2026, perekonomian global diperkirakan masih diliputi oleh ketidakpastian dan berbagai tantangan. Dana Moneter Internasional (*International Monetary Fund*/IMF) memproyeksikan pertumbuhan ekonomi dunia berada di kisaran 3,3%, relatif stabil dibandingkan tahun sebelumnya. Sementara itu, Pemerintah Indonesia menargetkan pertumbuhan ekonomi nasional sebesar 5,4% di tahun yang sama, dengan fokus pada hilirisasi industri, penguatan ketahanan pangan, serta percepatan transisi energi.

Entering 2026, the global economy is expected to remain shrouded in uncertainty and various challenges. The International Monetary Fund (IMF) projects global economic growth to be around 3.3%, relatively stable compared to the previous year. Meanwhile, the Indonesian government is targeting national economic growth of 5.4% for the same year, with a focus on industrial downstreaming, strengthening food security, and accelerating the energy transition.

PERTAMINA memandang bahwa terdapat sejumlah risiko global yang perlu terus diantisipasi. Ketegangan geopolitik yang berkepanjangan dapat meningkatkan risiko gangguan rantai pasok energi dan volatilitas pasar global. Laporan *Global Risks Report* 2026 menyatakan bahwa *geoeconomic confrontation* dapat menjadi risiko terbesar dunia pada tahun 2026, menggeser posisi risiko-risiko lain seperti konflik antarnegara dan misinformasi. Selain itu, penggunaan instrumen ekonomi seperti tarif, kontrol teknologi, dan pembatasan perdagangan oleh negara besar meningkatkan ketidakstabilan dalam perdagangan internasional dan investasi.

PERTAMINA believes there are a number of global risks that require continued anticipation. Prolonged geopolitical tensions could increase the risk of energy supply chain disruptions and global market volatility. The Global Risks Report 2026 states that geoeconomic confrontation could become the world's biggest risk by 2026, displacing other risks such as interstate conflict and misinformation. Furthermore, the use of economic instruments such as tariffs, technology controls, and trade restrictions by major economies increases instability in international trade and investment.

Dari sisi makro ekonomi global, IMF mencatat bahwa penurunan inflasi berjalan secara bertahap, namun risiko terhadap penundaan pemangkasan suku bunga tetap tinggi akibat ketidakpastian kebijakan dan volatilitas pasar keuangan global. Di sisi lain, meningkatnya ketidakpastian mendorong investor global menuju aset aman (*safe haven*), menyebabkan penguatan Dolar AS yang memberi tekanan tambahan terhadap mata uang negara berkembang dan meningkatkan biaya impor energi.

From the global macroeconomic perspective, the IMF noted that inflation gradually declines, but the risk of delaying interest rate cuts remains high due to policy uncertainty and global financial market volatility. On the other hand, the increasing uncertainty drives global investors toward safe-haven assets, leading to a strengthening of the US dollar, which is putting additional pressure on emerging market currencies and increasing energy import costs.

Di dalam negeri, Pemerintah menetapkan sejumlah program prioritas pembangunan untuk tahun 2025-2026 yang berfokus pada penguatan kedaulatan pangan dan energi serta peningkatan produktivitas dan inklusivitas ekonomi. Program utama mencakup perluasan perlindungan sosial, penguatan sektor pendidikan seperti sekolah rakyat dan digitalisasi pendidikan, peningkatan layanan kesehatan, pembangunan 3 juta rumah, Koperasi Desa Merah Putih, program penguatan kemiskinan terpadu, dan pengelolaan sampah terpadu memperkuat agenda pemerataan dan ketahanan nasional.

Domestically, the government has established several priority development programs for 2025-2026, focusing on strengthening food and energy sovereignty and increasing economic productivity and inclusiveness. Key programs include expanding social protection, strengthening the education sector, including public schools and the digitalization of education, improving healthcare services, building 3 million homes, establishing the Red and White Village Cooperative, an integrated poverty alleviation program, and integrated waste management, strengthening the national equity and resilience agenda.

Dengan mempertimbangkan dinamika eksternal dan internal tersebut, Pertamina menetapkan arah bisnis strategis dengan tema *"Accelerating the Pathway Towards Future Opportunities"*. Strategi ini diimplementasikan melalui pendekatan *dual-growth strategy*, yang berfokus pada penguatan bisnis eksisting yang sudah ada dan juga pengembangan bisnis rendah karbon. Strategi ini selaras dengan visi Perusahaan, yaitu "Menjadi Perusahaan Energi yang Mengedepankan Ketahanan, Ketersediaan, dan Keberlanjutan", serta misi untuk menyediakan energi melalui solusi inovatif yang memberikan nilai tambah bagi masyarakat.

Taking these external and internal dynamics into consideration, Pertamina has established a strategic business direction with the theme "Accelerating the Pathway Towards Future Opportunities." This strategy is implemented through a dual-growth strategy approach, which focuses on strengthening existing businesses and developing low-carbon businesses. This strategy aligns with the Company's vision, "To Become an Energy Company that Prioritizes Resilience, Availability, and Sustainability," and its mission to provide energy through innovative solutions that add values to the society.

Berikut pendekatan *Dual-Growth Strategy* yang diimplementasikan oleh Perusahaan:

1. *Maximizing Legacy Businesses*
   a. Penurunan impor minyak mentah, *gasoline*, dan LPG;
   b. Peningkatan produksi hulu;
   c. Peningkatan fleksibilitas dan kapasitas kilang;
   d. Transformasi bisnis ritel BBM;
   e. Ekspansi infrastruktur transmisi, distribusi, dan *shipping* Segmen *Midstream*; dan
   f. Implementasi subsidi tepat sasaran dan pembangunan infrastruktur hilir.
2. *Building A Low-Carbon Business*
   a. Pengembangan ekosistem *biofuel*;
   b. Hilirisasi petrokimia rendah karbon;
   c. Ekspansi kapasitas panas bumi (*geothermal*)
   d. Penerapan CCS dan CCUS; dan
   e. Mekanisme *carbon credit* dan teknologi rendah karbon lainnya.

The following is the Dual-Growth Strategy approach implemented by the Company:

1. Maximizing Legacy Businesses
   a. Decrease in imports of crude oil, gasoline, and LPG;
   b. Increase in upstream production;
   c. Increase in refinery flexibility and capacity;
   d. Transformation of the fuel oil retail business;
   e. Expansion of Midstream Segment transmission, distribution and shipping infrastructure; and
   f. Implementation of targeted subsidies and downstream infrastructure development.
2. Building A Low-Carbon Business
   a. Development of biofuel ecosystem;
   b. Low carbon petrochemical downstreaming;
   c. Geothermal capacity expansion
   d. Implementation of CCS and CCUS; and
   e. Carbon credit mechanisms and other low carbon technologies.

Pertamina di masa depan akan terus berupaya mengintegrasikan infrastruktur yang dimiliki, termasuk investasi oleh masing-masing *Subholding*, guna menciptakan efisiensi produksi dan distribusi sekaligus mendukung keselarasan dengan rencana pengelolaan energi nasional.

In the future, Pertamina will continue to strive to integrate its infrastructure, including investments by each Subholding, to create production and distribution efficiencies while supporting alignment with the national energy management plan.

PROYEKSI KINERJA TAHUN 2026
Performance Projection for 2026

Proyeksi Kinerja PERTAMINA Tahun 2026
PERTAMINA's Performance Projection for 2026

Perihal Description	Proyeksi Kinerja Tahun 2026 Terhadap Realisasi Kinerja Tahun 2025 Performance Projection for 2026 Against Performance Realization for 2025
Penjualan dan Pendapatan Usaha Lainnya Sales and Other Operating Incomes	10,65%
Laba (Rugi) Konsolidasi Consolidated Profit (Loss)	1,85%
Struktur Modal Capital Structure	41% pendanaan eksternal dan 59% pendanaan internal 41% external funding and 59% internal funding
Pembayaran dividen di tahun 2026 (untuk Hasil Usaha tahun 2025) Dividend payment in 2026 (for Business Proceeds in 2025)	sesuai dengan Keputusan RUPS Tahunan Tahun Buku 2025 in accordance with Resolutions of Annual General Meeting of Shareholders for Financial Year 2025
Investasi Investment	28,22%

PERTAMINA memiliki peran dalam mendukung pertumbuhan ekonomi dan menjaga ketahanan energi nasional. Sebagai tanggapan menghadapi dinamika industri global migas ke depan, yang di dalamnya mencakup *Energy Security*, *Energy Affordability*, dan *Energy Sustainability*, PERTAMINA terus melakukan inovasi, disertai program efisiensi dan optimasi, dengan tetap menjaga aspek HSSE dan *good governance*, serta memastikan keberlanjutan bisnis sekaligus memperkuat posisi perusahaan dalam menghadapi transisi energi. PERTAMINA masih melihat peluang bisnis tahun 2026 dan optimis dapat melanjutkan tren pertumbuhan.

PERTAMINA plays a key role in supporting economic growth and maintaining national energy security. In response to the future dynamics of the global oil and gas industry, which encompass Energy Security, Energy Affordability, and Energy Sustainability, PERTAMINA continues to innovate, complemented by efficiency and optimization programs, while maintaining HSSE and good governance aspects, ensuring business sustainability while strengthening the company's position in facing the energy transition. PERTAMINA remains seeing business opportunities in 2026 and is optimistic about continuing its growth trend.

PETA JALAN USAHA
Business Roadmap

Dalam menghadapi dinamika industri energi, baik pada tingkat global maupun nasional, Pertamina merancang peta jalan usaha jangka panjang sebagai tanggapan strategis terhadap berbagai tantangan yang berkembang di sektor energi. Peta jalan tersebut dirancang untuk memberikan arah pengembangan perusahaan yang komprehensif, adaptif, dan berkelanjutan. Peta jalan usaha Pertamina mengusung tema strategis *dual-growth strategy*, yang bertumpu pada dua pilar utama, yaitu *Maximizing Legacy Businesses* dan *Building Low Carbon Businesses*.

Pilar strategis *Maximizing Legacy Businesses* berfokus pada optimalisasi portofolio bisnis eksisting di sektor energi fosil guna menjaga kinerja dan keberlanjutan usaha. Secara simultan, melalui pilar *Building Low Carbon Businesses*, Pertamina mulai mengembangkan portofolio bisnis berbasis energi baru dan terbarukan sebagai langkah transformasi menuju bisnis rendah karbon. Penjabaran kedua pilar strategis tersebut ke dalam peta jalan usaha pada berbagai segmen bisnis Pertamina adalah sebagai berikut:

To address the dynamics of the energy industry, both globally and nationally, Pertamina has designed a long-term business roadmap as a strategic response to the various challenges emerging in the energy sector. The roadmap is designed to provide a comprehensive, adaptive, and sustainable direction for the company's development. Pertamina's business roadmap embraces a dual-growth strategy, anchored by two main pillars: Maximizing Legacy Businesses and Building Low-Carbon Businesses.

The Maximizing Legacy Businesses strategic pillar focuses on optimizing the existing business portfolio in the fossil fuel oil sector to maintain business performance and sustainability. Simultaneously, through the Building Low-Carbon Businesses pillar, Pertamina has begun developing a portfolio of new and renewable energy-based businesses as a step towards a low-carbon transformation. The details of these two strategic pillars in the business roadmap across Pertamina's various business segments are as follows:

***Dual-Growth Strategy* Pertamina**

Maximizing Legacy Businesses

Peningkatan Produksi Hulu
Upstream Production Increase

Penguatan produksi migas domestik sebagai baseline serta M&A
Strengthening domestic oil and gas products as a baseline and M&A

Membangun Fleksibilitas Kilang
Building Refinery Flexibility

Mengoptimalkan aset kilang untuk meningkatkan efisiensi dan margin
Optimizing refinery assets to improve efficiency and margins

Transformasi Bisnis BBM + Retail
Fuel + Retail Business Transformation

Digitalisasi MyPertamina dan pengembangan bisnis non-retail
Digitalization of MyPertamina and non-retail business development

Penguatan Bisnis Gas dan Shipping
Strengthening Gas and Shipping Business

Pengembangan bisnis dan infrastruktur gas terintegrasi serta shipping
Development of integrated gas business and infrastructure as well as shipping

Building Low Carbon Businesses

Pertumbuhan Ekosistem Biofuel
Biofuel Ecosystem Growth

Peningkatan bauran biofuel untuk biodiesel, bioethanol dan SAF
Increasing the biofuel mix for biodiesel, bioethanol and SAF

Hilirisasi Menuju Produk Kimia
Downstreaming to Chemical Products

Memperluas kapasitas petrokimia serta integrasi kilang ke produk kompleks
Expanding petrochemical capacity as well as refinery integration into complex products

Ekspansi Kapasitas Geothermal
Geothermal Capacity Expansion

Meningkatkan kapasitas dan memperluas peluang bisnis baru untuk geothermal
Increasing capacity and expanding new business opportunities for geothermal

Bisnis Low Karbon Lain
Other Low Carbon Businesses

Dekarbonisasi, CCUS/CCS, gas-to-power, solar, NBS, carbon credit, EV, hydrogen, dll
Decarbonization, CCUS/CCS, gas-to-power, solar, NBS, carbon credit, EV, hydrogen, etc

Maximizing Legacy Businesses

Optimasi Sektor Hulu Minyak & Gas

Pertamina berkomitmen untuk mempertahankan sekaligus meningkatkan ketahanan energi nasional melalui strategi investasi jangka panjang pada sektor hulu minyak dan gas bumi. Strategi ini difokuskan pada pengembangan lapangan eksisting, eksplorasi wilayah kerja baru, peningkatan efisiensi & efektivitas operasional, serta pertumbuhan anorganik. Upaya tersebut tidak hanya bertujuan untuk menjaga kesinambungan pasokan minyak dan gas domestik, tetapi juga untuk memperkuat ketahanan energi sebagai salah satu fondasi utama stabilitas dan pertumbuhan perekonomian nasional.

Optimization of Upstream Oil & Gas Sector

Pertamina is committed to maintaining and enhancing national energy security through a long-term investment strategy in the upstream oil and gas sector. This strategy focuses on developing existing fields, exploring new working areas, improving operational efficiency and effectiveness, and inorganic growth. These efforts aim not only to maintain the continuity of domestic oil and gas supplies but also to strengthen energy security as a key foundation for national economic stability and growth.

Membangun Fleksibilitas Kilang

Pertamina merencanakan investasi strategis pada proyek-proyek pengembangan kilang yang bertujuan untuk meningkatkan margin kilang pengolahan, memodernisasi fasilitas produksi, serta memperkuat fleksibilitas operasional kilang eksisting. Peningkatan fleksibilitas tersebut dirancang untuk memungkinkan dilakukannya transisi bertahap dari produksi bahan bakar minyak menuju pengembangan produk petrokimia dengan nilai tambah yang lebih tinggi. Transformasi ini menjadi langkah strategis dalam memastikan kilang-kilang Pertamina mampu beradaptasi terhadap dinamika perubahan permintaan energi global dan perkembangan industri petrokimia. Dengan demikian, keberlanjutan dan daya saing bisnis pengolahan dapat tetap terjaga dalam jangka panjang.

Building Refinery Flexibility

Pertamina plans strategic investments in refinery development projects aimed at increasing refinery margins, modernizing production facilities, and strengthening the operational flexibility of existing refineries. This increasing flexibility is designed to enable a gradual transition from fuel oil production to the development of higher-value petrochemical products. This transformation is a strategic step to ensure Pertamina's refineries are able to adapt to the dynamics of changing global energy demand and developments in the petrochemical industry. Therefore, this will ensure the sustainability and competitiveness of the refining business in the long term.

Pengembangan Infrastruktur Distribusi & Transformasi Bisnis Ritel

Dalam rangka meningkatkan ketepatan penyaluran energi serta memperkuat struktur bisnis hilir, Pertamina akan terus mengembangkan infrastruktur distribusi secara berkelanjutan. Selain itu, perusahaan juga melaksanakan transformasi pada sektor ritel melalui penguatan ekosistem digital MyPertamina, optimalisasi monetisasi layanan berbasis data, serta pengembangan segmen *Non-Fuel Retail* (NFR) sebagai sumber pertumbuhan baru. Serangkaian langkah strategis tersebut bertujuan untuk meningkatkan efisiensi operasional, memperkuat akurasi distribusi energi, serta memperluas basis pendapatan perusahaan. Dengan demikian, Pertamina diposisikan sebagai penyedia layanan energi yang modern, adaptif, dan berorientasi pada kebutuhan pelanggan. Dengan langkah ini maka Pertamina memiliki aspirasi untuk dapat memposisikan perusahaan sebagai penyedia layanan energi yang modern, efisien, dan berorientasi pelanggan.

Distribution Infrastructure Development & Retail Business Transformation

To improve the accuracy of energy distribution and strengthen its downstream business structure, Pertamina will continue to develop its distribution infrastructure sustainably. Furthermore, the company transforms its retail sector by strengthening the MyPertamina digital ecosystem, optimizing data-driven service monetization, and developing the Non-Fuel Oil Retail (NFR) segment as a new source of growth. These strategic steps aim to improve operational efficiency, strengthen the accuracy of energy distribution, and expand the company's revenue base. Thus, Pertamina is positioned as a modern, adaptive, and customer-oriented energy service provider. With these steps, Pertamina aspires to position itself as a modern, efficient, and customer-oriented energy service provider.

Building Low Carbon Businesses

Pengembangan *Biofuel*

Pertamina berkomitmen untuk memperluas penyediaan energi yang lebih bersih melalui peningkatan kapasitas produksi dan penguatan infrastruktur biofuel. Program strategis yang dijalankan mencakup optimalisasi implementasi biodiesel serta pengembangan dan perluasan pemanfaatan *biogasoline*. Inisiatif tersebut tidak hanya merupakan bagian dari kontribusi perusahaan dalam mendukung upaya penurunan emisi karbon di Indonesia, tetapi juga berperan dalam memperkuat ketahanan energi nasional melalui pemanfaatan sumber daya domestik yang lebih berkelanjutan. Dengan demikian, pengembangan biofuel menjadi salah satu pilar penting dalam mendukung agenda transisi energi dan pembangunan rendah karbon.

Biofuel Development

Pertamina is committed to expanding the supply of cleaner energy by increasing production capacity and strengthening biofuel infrastructure. Its strategic programs include optimizing biodiesel implementation and developing and expanding biogasoline utilization. These initiatives not only represent the company's contribution to supporting carbon emission reduction efforts in Indonesia but also play a role in strengthening national energy security through more sustainable use of domestic resources. Therefore, biofuel development is a crucial pillar in supporting the energy transition and low-carbon development agenda.

Akselerasi Pertumbuhan Bisnis Petrokimia

Dalam rangka memperkuat kontribusi terhadap pendapatan nasional, Pertamina mengembangkan rantai nilai industri petrokimia melalui optimalisasi fasilitas eksisting serta peningkatan kapasitas produksi petrokimia secara terintegrasi. Strategi ini diarahkan untuk meningkatkan efisiensi operasional, memperluas portofolio produk bernilai tambah, dan memperkuat daya saing industri domestik. Pengembangan tersebut dirancang agar Indonesia mampu bersaing di pasar regional, sekaligus mengurangi ketergantungan terhadap impor produk petrokimia. Dengan demikian, akselerasi bisnis petrokimia tidak hanya berperan sebagai sumber pertumbuhan baru, tetapi juga sebagai kontribusi strategis dalam memperkuat struktur industri nasional.

Accelerating Petrochemical Business Growth

To strengthen its contribution to the national revenue, Pertamina develops the petrochemical industry value chain by optimizing existing facilities and increasing petrochemical production capacity in an integrated manner. This strategy is aimed at improving operational efficiency, expanding the portfolio of value-added products, and strengthening the competitiveness of the domestic industry. This development is designed to enable Indonesia to compete in regional markets while reducing dependence on imported petrochemical products. Thus, accelerating the petrochemical business not only serves as a new source of growth but also serves as a strategic contribution to strengthening the national industrial structure.

Ekspansi Energi Panas Bumi

Sebagai salah satu pelaku utama dalam pengembangan energi bersih, Pertamina menargetkan peningkatan kapasitas panas bumi sebagai agenda strategis dalam mendorong pertumbuhan bisnis di sektor energi baru dan terbarukan. Upaya tersebut dilaksanakan melalui pengembangan lapangan eksisting, eksplorasi wilayah kerja baru, serta strategi pertumbuhan anorganik guna mempercepat ekspansi portofolio. Investasi pada energi panas bumi ini diposisikan sebagai pilar utama dalam mendukung komitmen perusahaan terhadap pencapaian target bauran energi nasional.

Geothermal Energy Expansion

As a key player in clean energy development, Pertamina targets increasing geothermal capacity as a strategic agenda to drive business growth in the new and renewable energy sector. This effort is implemented through the development of existing fields, exploration of new working areas, and inorganic growth strategies to accelerate portfolio expansion. Investment in geothermal energy is positioned as a key pillar in supporting the company's commitment to achieving the national energy mix target.
